POLICE COMMITTEE
February 22, 2022
Meeting Minutes
Police Department Training Room
1710 Plainfield Road

1. Call to Order
The meeting was called to order at 6:17 p.m. in attendance were Chairman Joe Kenny, Alderman Lester Vaughan and Chief Greg Thomas.
2. Public Comment and Communications
There was no public comment.
3. Approval of Meeting Minutes from the October 18, 2021 meeting.
Alderman Vaughan motioned to approve the minutes seconded by Chairman Kenny. The minutes were approved 2-0.
4. Review of the Fiscal Year Ending 2023 Proposed Budget
The committee reviewed the proposed budget. Chief advised that training costs are up this year due to changes to the Illinois SAFE-T Act. Liability Insurance has also increased to pay for the city council approved administrative hearing officer and prosecutor who will be localized now. The budget increased 1.83% or \$157,000 from last year.
5. Agenda Memo - Approval of an ordinance authorizing the sale or disposal of surplus property.
Alderman Kenny asked if any items are offered to Public Works to see if they can use items. Chief advised that he would send the surplus property list to Public Works to see if they are interested in using any items. Alderman Vaughan motioned to approve seconded by Chairman Kenny. The ordinance was unanimously approved 2-0.
6. Agenda Memo – A resolution to approve an Intergovernmental Agreement between the Board of Education of Hinsdale Township High School District NO. 86 and the City of Darien for School Resource Officer Services from 2022 through 2023.
Chief informed the committee that this IGA is renewed every two years. The most significant change to the agreement this year is the SAFE-T Act now requires body worn cameras for officers by 1/1/2025. Chairman Kenny asked what the benefit is

to giving District 86 a list of our officers that are interested in becoming Student Resource Officers (SRO). Chief explained that the school likes to have input on which officer will be appointed as the SRO. First the police department completes an internal vetting of the officers who express an interest in the position. The department then gives a list of three department approved candidates to the school and they choose from this list. This ensures that both the department and the school have a say in which officer is chosen.

The resolution was unanimously approved 2-0.

7. Adjournment

The meeting was adjourned at 6:24 p.m.

ISSUE STATEMENT

A resolution authorizing the purchase one (1) copier/printer from Alternative Business Suppliers, Inc. using Department of Justice (DOJ) award money in an amount not to exceed \$6,500.

BACKGROUND/HISTORY

The City of Darien purchased the current Police Department copier, Toshiba eStudio457 in 2013. The average lifespan of a copier is around 3-5 years. Due to the age of the copier, the monthly maintenance cost along with the number of service calls continues to increase and parts are difficult and costly to procure for the current copier. This is the primary printer/copier/scanner for the Darien Police Department.

When purchasing a new copier, the main features to consider are print speed, paper capacity, scanning abilities, memory and security. Staff solicited quotes from three companies. The costs are summarized below.

Supplier	Lease Monthly	LEASE COST (60 months)	Purchase Price	Total Cost for 1 copier	Cost of Copies exceeding monthly allotment	Copies allowed monthly	Brand of Copier/Specials
Ricoh	\$123.92	\$7,435.20	\$6,820	\$7,493 Fax added \$673 Hole punch included for no additional charge	0.0059 – includes parts/labor/toner	5,000	Ricoh IM6000. - \$900 CASH rebate
ABS	\$103.00	\$6,180	\$5,995	\$5,995 Includes Fax System, Stapler and Hole Punch	0.009 - includes – parts/labor/toner	220,000	Kyocera CS 5004i
Proven IT	\$212.35	\$12,741	\$6,223.22	\$6,223.22 Includes Fax System, Stapler and Hole Punch	0.0043	8,500	Toshiba eStudio5018a

The models priced all possess the same capabilities: scan color/black and white; three-hole punch, fax, staple finish and secure print.

The Darien Police Department is a proud participant in the United States Department of Justice Equitable Sharing Fund for State and Local Law Enforcement Agencies. For the last two years, the Darien Police Department has participated in federal task forces whose goal is to stem the flow of illegal narcotics into the Chicago metropolitan area, which is one of the major hubs for illegal narcotics coming into the United States. It is the goal of this program to not only cut off the flow of illegal narcotics into the area, but to take away and use the tools, proceeds and property derived from any criminal activity against the

offenders. These seized tools, proceeds and property are ultimately a deterrent to criminal activity and an enhancement to law enforcement. Under the *Guidelines of the Equitable Sharing Program*, the funds received cannot be used to replace or supplant the police department's regularly budgeted monies but augment the police budget. These seized monies may only be used by the police department in order to augment the police budget. This purchase meets the *Guidelines of the Equitable Sharing Program* and will provide an important tool for the police department that otherwise would not be available without participation in the Equitable Sharing Program. The cash balance of this fund is \$203,619.97 as of March 15, 2022.

STAFF/COMMITTEE RECOMMENDATION

Staff recommends approving the resolution.

 **elevate™**
RAISE YOUR EXPECTATIONS

Simple, smart and stylish.

A larger 10.1" tablet-style touch screen with an embedded web browser is easy to use, and customizable to meet your needs, enhancing the sleek and modern look of the complete series.

Produce more with less effort.

The Toshiba e-STUDIO5018A Series is designed to put a fast, efficient, secure MFP in the hands of workgroups looking to improve productivity.

- > Impressive resolution providing 2,400 dpi (Equivalence) x 600 dpi (with smoothing)
- > A time-saving, high-speed, high-capacity 300-sheet Dual-Scan Document Feeder
- > A high toner yield minimizes end-user intervention and enables long uninterrupted runs

Elevate streamlines complicated multi-step processes into automated, one-touch functions. We know you have work to do and at Toshiba we've introduced a new concept designed to make your job easier and more productive by personalizing the MFP user interface around your specific business processes.

Elevate enables customized and automated workflow presenting the user with convenient one-touch functions addressing only the tasks they use most. This results in simple operation and improved efficiency leading to an overall cost savings. Let Toshiba Elevate your productivity.

- > Customize and automate workflows specifically around your business processes
- > Boost productivity by reducing manual and paper intensive processes in the office
- > Personalize the user interface by department to deliver the utmost efficiency
- > Cost savings and greater efficiency through improved workflow and productivity
- > Clear away clutter and confusion on home screen by presenting only the tasks used most

A COMPACT DESIGN THAT LEAVES NOTHING OUT.

Workgroups can now get a lot more done using fewer resources and less space. The compact design of the e-STUDIO5018A Series is packed with useful functions, lots of options and elegant style.

Advanced e-BRIDGE Next Technology enables the MFP to drive Toshiba's internally developed solutions or those from a third party with ease.

Auto Skew Correction ensures your scanned documents, using any of the document feeder options are reproduced accurately.

First Copy Out Time clocks in at blazing fast speeds of up to 3.6 seconds.

Embedded Optical Character Recognition (OCR) simplifies the creation of searchable PDFs or editable document formats such as Microsoft® Word™.

Job Reservation will queue up multiple copy or print jobs so users can send jobs whenever.

Saddle/Fold Capabilities offer saddle-stitch finishing and the ability to fold without stapling.

Notifications Feature takes the hassle out of checking for depleted supplies or maintenance needs.

Service Module Design significantly reduces the cost and time spent servicing the MFP.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around one job that's held-up due to requiring a specific paper size or type.

Paper Volume Indicators on the front panel make it easy to see the paper sizes, types and levels in each cassette.

Print-from USB lets you print PDF and JPG files straight from your USB drive and the MFP will scale document to fit the available paper size if necessary.

e-BRIDGE Plus for USB Storage is great for capturing a file quickly when you're on the go.

Scan Preview allows you to review your scanned documents digitally, even rotate and change pages prior to sending to file or email.

Fax Preview saves valuable resources by letting you view received faxes prior to printing them.

TOSHIBA TECHNOLOGY AT WORK FOR YOU.

At Toshiba, we work hard to make your work easier, and more productive. In fact, we haven't even mentioned all of our impressive features, like PCL 6, PS3, XPS support and Universal Drivers that offer connectivity to Windows®, Macintosh® and more. Then there are driver plug-ins such as e-BRIDGE Job Point that splits large jobs over multiple machines, e-BRIDGE Job Replicator for the creation of multi-part forms and documents, e-BRIDGE Job Separator for batch printing with any app, and e-BRIDGE Job Build to print different documents together as a single job.

Security for Your Business

We're constantly looking for new ways to make your work, and ours, safer, and more secure.

- > A 320GB Self-Encrypting Drive (SED) with Automatic Drive Invalidation (ADI) & Data Overwrite capability provides top level security
- > Available FIPS 140-2 Validated SED exceeds government requirements
- > IPsec is available to securely encrypt data sent to and from the MFP
- > HCD-PP Certified ensures that the MFP has met rigorous security assurance requirements to safeguard your digital document

Toshiba's new e-BRIDGE Plus apps, including e-BRIDGE Plus for OneDrive® for Business, e-BRIDGE Plus for SharePoint® Online and e-BRIDGE Plus for Exchange Online let users scan to and print from Microsoft's cloud-based services directly at the front panel of the e-STUDIO MFP or their mobile device. This includes Word™, Excel® and PowerPoint® (docx, xlsx, pptx) documents stored in OneDrive® accounts or SharePoint® locations. When combined with our embedded OCR feature, documents can be scanned into popular Office™ formats as well.*

With Google Cloud Print™ support, you can securely print over the web from anywhere, anytime—including your phone—to an e-STUDIO5018A Series MFP, e-BRIDGE Plus for Google Drive™, e-BRIDGE Plus for OneDrive®, e-BRIDGE Plus for DropBox®, and e-BRIDGE Plus for box™ address all of the popular cloud-based mobility apps.*

*Your network settings and/or access control may vary depending on network environment when installing e-BRIDGE Plus applications. For details, please consult Toshiba's sales person.

**Available three applications; e-BRIDGE Plus for OneDrive® for Business, e-BRIDGE Plus for SharePoint® Online and e-BRIDGE Plus for Exchange Online.

Responsibility for the Planet

Innovation that is truly innovative makes certain that our environment is part of the equation, which is why we're always looking for ways to be even more environmentally responsible.

- > ENERGY STAR® V2.0 certified
- > RoHS compliance, the use of recycled plastics, and Super Sleep (0.6W) Mode work to help the environment
- > EPEAT Gold Registered for greener electronics, designed to help purchasers choose products that reduce environmental impact
- > The new e-STUDIO models' Typical [weekly] Electrical Consumption or TEC value is exceptionally low, equating to an environmentally friendly product with a low operating cost
- > e-BRIDGE Plus for Green Information provides users with a graphical display at the MFP of their environmental contribution to promote more effective use

The e-STUDIO5018A Series includes all the features you would expect from a top-quality MFP, along with a few new ones.

In Control with the Greatest of Ease

A larger tiltable, touch swipe 10.1" color panel works like a tablet or smartphone interface so you can find whatever you need by just swiping your finger.

Advanced e-BRIDGE Next Technology

Built on Linux®, this latest generation e-BRIDGE Next architecture features an Embedded Web Browser, a dual-core processor, up to 4GB RAM, and a 320GB SED enabling the MFP to easily drive Toshiba's internally developed solutions or even third-party applications.

Double the Scan Speed

A 300-sheet high-speed, high-capacity Dual-Scan Document Feeder (DSDF) produces up to 120 IPM simplex and 240 IPM duplex. A conventional RADF is available for less scan-intensive businesses.

Special Envelope Cassette

Keep your envelopes firmly in place for accurate printing from start to finish with an envelope cassette that holds up to 60 sheets at a time.

Add What You Need, All at Once

1,200 sheet paper capacity comes standard, but if you need more, just add two optional 550-sheet cassettes or a tandem LCF for 2,000 LT only for a total capacity of 3,200.

High Volume, High Toner Yield

The monthly copy volume reaches up to 150,000 and an equally impressive toner yield tops out at 43,900 at 5% coverage.

Multi-Station Print Enabler

Toshiba's internally developed Multi-Station Print Enabler, now with support of up to 50 e-STUDIO devices, allows users to send print jobs from their desktop and retrieve them by simply swiping their card and authenticating at any convenient MFP.

The Ricoh Value Proposition

At Ricoh, we look at our customer's businesses from every angle to help them create the future they want. We see where there is room for innovation, where there is room to grow, and where there is room to rethink. Our dedicated people, processes and technologies drive the path to change that delivers the top business outcomes desired by our customers... whatever they might be. Ricoh is committed to providing our people with all the tools necessary to not only imagine what's next for businesses, but to drive the change necessary within those businesses, to create the future they want.

Drive Cost Effectiveness

We help businesses increase efficiency by identifying non-core and labor intensive tasks that would be more efficiently done by others, and recommend technology investments that optimize business processes.

Maintain Data Privacy and Security

With more data at risk every day, customers look to Ricoh and our long history of securing data for the processes and technology that provide secure accessibility in their IT infrastructure.

Streamline Business Processes

We re-engineer critical workflows to optimize the flow of information and greatly enhance business agility for our customers.

Manage Organizational Change

Change isn't always easy, but it is critical to any organization's growth. Our technology solutions and work expertise help increase adoption of change.

Maximize Worker Productivity

Empowering iWorkers to collaborate, innovate and problem-solve rather than re-creating information that already exists is our top priority.

Optimize Information

We unlock business information hidden within companies and make it more easily available to the right people, at the right place and at the right time.

Build a Strategic Infrastructure

Beyond recommending systems and software, our teams of experts offer the critical expertise needed to design environments within which any businesses' unique processes can flourish.

Achieve Environmental Stability

As the industry leader in eco-solutions, we are driving businesses toward conserving energy and minimizing waste. It's good for business... and the planet.

Why Ricoh

The Ricoh Difference

There are many reasons why companies choose to partner with Ricoh, including our access to best-in-class technology and the strength of our people and support structure. Ultimately, however, customers stay with Ricoh because of our commitment to helping their businesses succeed.

Helping Our Customers Succeed

At Ricoh, we recognize that if we are to help our customers remain competitive, we must provide the vision and solutions that enable them to:

- Develop Business methodologies that focus on process improvement and increased workflow efficiency
- Control or reduce the total cost of ownership associated with document management processes
- Strengthen collaboration, while maintaining document security when sharing information
- Minimize environmental impact and partner on "green" document management initiatives
- Provide total compliance with regulatory and risk standards

Our People

Our team of sales and technical resources are personally committed to bringing the best solution to each individual customer, and we hold them accountable for your results. Our local service professionals average over 18 years' experience and undergo approximately 100 hours of training per year. They work in conjunction with our dedicated systems analysts to concentrate on your digital document needs. Our highly trained and experienced service technicians support specific customers in assigned territories. This process fosters solid relationships and a true understanding of your operations, applications and peak production periods, to ensure maximum responsiveness and uptime.

- Experienced team supported by comprehensive award-winning training
- National network of 4,600 Ricoh-employed service professionals
- Accountable for your results

Straightforward printing for busy offices

Streamlined workplaces require streamlined systems

Working environments are becoming more streamlined. From apps and smart devices to virtual meetings and data accessed via cloud environments, every element of office working is evolving. Rightfully, people expect their office equipment to facilitate this new way of working.

The latest devices, with their intuitive features, are being continuously updated to incorporate up-to-the-minute developments — catering to all requirements while keeping pace with these technological developments.

About the range — at a glance

A3 B&W intelligent devices are designed to boost office productivity without complex user interfaces, thanks to the Smart Operation Panel.

With features such as high scanning speeds and an extensive range of finishing options, this improved productivity is also effortless.

All the way up to a blistering 60 pages per minute, the range perfectly tailors to a wide range of business needs and sectors. Along with the print speed performance you need, the range offers impressive scan speeds between 120 – 240 ipm in B&W and color.

Industry-leading suite of finishing options

The wide variety of paper support and finishing options enable you to configure your device to your needs.

Booklet finishers can print booklets and magazines, while the hybrid finisher offers staple-free binding.

Finishers can punch and staple. And with the multifolding unit, you can fold leaflets.

The different paper options offer additional paper capacity reducing refill jobs.

Making every day tasks easier

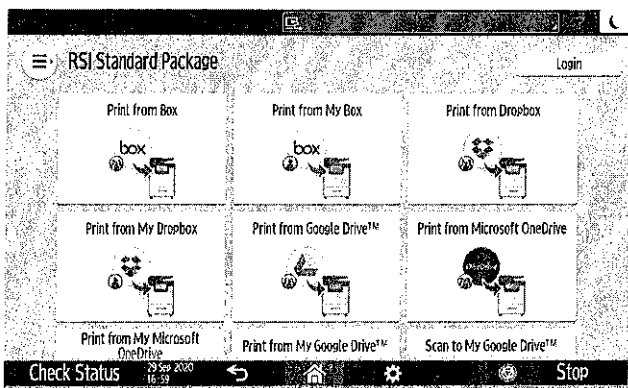

- **The latest technology:** RICOH Always Current Technology provides access to required applications, the latest features and upgrades.
- **Total integration:** RICOH Smart Integration provides cloud-based apps and a cohesive document workflow across multiple devices.
- **Productivity:** The intuitive Smart Operation Panel makes using the devices quick and easy and workflows more intuitive.
- **Safety:** RICOH Smart Device Connector enables touchless operation of the MFP, allowing users to control all print, copy, scan and fax functions from Android and iOS devices smartly and safely.

About those industry-leading features – in more detail...

RICOH Always Current Technology

Always Current Technology delivers timely solutions to meet your changing needs. With RICOH Always Current Technology enabled, the capabilities of your Ricoh intelligent device continually adapt to the changing demands of your workforce.

Available on most of Ricoh's intelligent devices, it quietly and continually supports you, automatically downloading software updates. And, just like your smartphone, it prompts you to activate the update at your convenience. The process is simple and secured.

RICOH Smart Integration Platform

RICOH Smart Integration helps maximize your MFP investment by providing document workflow automation right from your device. Users will be able to digitize and route documents seamlessly, allowing them to work faster, smarter and more cost effectively.

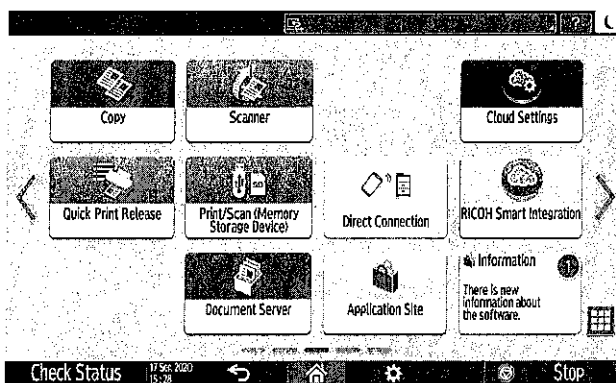

Whether the document destination is a folder, an email recipient, a fax number, in the cloud or local — RICOH Smart Integration helps get the document to the right location, in the right file format, with the right file naming.

RICOH Smart Integration is provided through a simplified subscription model, making it quick and easy to get started, and you have immediate access to the latest features without high upfront costs. The capabilities available through subscription are growing rapidly, and new workflow integrations are completed by Ricoh's committed team of developers on an on-going basis.

Smart Operation Panel

With our latest 10.1" Smart Operation Panel, complete with soft-key operation, your Ricoh multifunction printer is even easier to touch, swipe and get the job done, thanks to a range of helpful features — including a customizable home screen and full internet browser capability.

When you want to simplify and improve document processes in your office, Ricoh's new range of A3 B&W intelligent MFPs — featuring Smart Operation Panel technology — brings you high quality printing, high efficiency workflows and low running costs.

Smart Device Connector

Smart devices are seeing greater and greater use on the business scene, but procedures for connection to office equipment are complex and still by no means stress-free. With our Smart Device Connector, those complex procedures become simple, and you can seamlessly connect to various smart devices.

You can also operate a multifunction product by NFC or QR code. Simply hold the smart device over it, and you're connected.

Secured. Sustainable. Simple.

Secured: Stay current with the latest security tools

Cyber security is a growing threat. Prevent your data and printing from being compromised with multi-layered security features that risk-proof document management.

Ricoh's Always Current Technology not only ensures you benefit from all the latest features and apps, it also ensures your device is always running the latest security update too.

Sustainable: Improve your carbon footprint

Since Kiyoshi Ichimura founded Ricoh's principles in 1946, we continue to leverage the power of business through incorporating social and environmental sustainability — undertaking a range of initiatives in keeping with our sustainability message: Driving Sustainability for Our Future.

Sustainability is at the heart of everything we do. Ricoh MFPs are designed to be energy efficient. It's as important to us as it is to you that any device we develop leaves a small carbon footprint on the environment. We also have a deep commitment to minimizing the environmental impact of our devices and workflow, which is why we continually work to meet the global standards for energy and resource efficiency, as defined by EPEAT^{®*} and ENERGY STAR[®]. Ricoh devices have low energy consumption levels, in both Typical Electricity Consumption (TEC) and actual power consumption.

*EPEAT is only applicable in the USA.

Simple: Cut your printing costs

Organizations are under pressure to keep company-wide costs down. Consolidate your printing equipment down into one highly productive and reliable fleet.

B&W printing is notable for reducing printing costs and, alongside quality and efficient scanning, will reduce paper usage overall.

We also offer a selection of cost control software products — from tracking energy, paper and consumables consumption to ensuring that the most efficient settings have been activated across all your print devices.
