5. Chief's Monthly Report
6. Next Meeting Date – May 20, 2019
7. Adjournment

**POLICE COMMITTEE
MEETING MINUTES
January 21, 2019**

Call to Order

The meeting was called to order at 6:06 p.m. in the police department training room. In attendance: Alderman McIvor, Alderman Marchese and Chief Thomas.

Public Comment and Communications

No public Comment and Communication.

Minutes

The minutes of the November 19, 2018, Police Committee meeting were unanimously approved.

Agenda Memo – A resolution authorization the purchase of (14) in-car printers from DuPage County Clerk’s office in the amount of \$8,400. Chief Thomas explained to the committee that the new squad in car systems are not compatible with the old in-car printers. The old printers are nine years old and because they are located in squads they are exposed to additional wear and tear such as temperature fluctuations. The DuPage County Clerk’s office offers subsidies to agencies, which significantly reduces the cost. The officers will use the new printers to print tickets and accident report forms on scene. The committee unanimously approved the resolution.

Agenda Memo – An ordinance authorizing the sale or disposal of surplus property. Chief stated to the committee that with the purchase of the new squads, the Department would like approval to sell the old squads on GovDeals.com. Alderman Marchese motioned to approve seconded by Chairman McIvor.

Chief’s Monthly Report

Chief Thomas reviewed the highlights of his monthly report.

Adjournment

The Committee Meeting adjourned at 6:20 p.m.

ISSUE STATEMENT

A resolution authorizing the purchase of a Security Information and Event Management System from All Information Services, Inc. (AIS) using Department of Justice award money in the amount of \$6,390.

BACKGROUND/HISTORY

Law enforcement databases need to be secure. The Criminal Justice Information Services (CJIS) security policy contains security requirements and guidelines for protecting the sources, transmission, storage, and generation of Criminal Justice Information (CJI). The Federal Information Security Management Act of 2002 provides legal basis for the security requirements mandated to protect Criminal Justice Information (CJI) including the hardware, software and infrastructure.

The law requires us to track and document security incidents on an ongoing basis. We have to designate an individual to review/analyze our information systems for indications of inappropriate or unusual activity, investigate suspicious activity or suspected violations, to report findings to appropriate officials, and to take necessary actions at least once a week. We have to monitor physical access to the information system to detect and respond to physical security incidents.

The solution to the law requires our hardware to have the ability to automatically send out event alerts/alarms in the event of questionable activity. We will also need a database/server to store all log data as required.

A system monitoring solution offered by the City's current IT vendor, All Information Services Inc. (AIS), was compared along with the quotes from other companies that provide similar services. AIS's solution meets our needs for compliance with the CJIS security policy. It will not require the purchase of any additional hardware.

The Darien Police Department is a proud participant in the United States Department of Justice and the United States Department of Treasury Equitable Sharing Program for State and Local Law Enforcement Agencies. For the last two years the Darien Police Department has participated in federal task forces whose goal is to stem the flow of illegal narcotics into the Chicago metropolitan area which is one of the major hubs for illegal narcotics coming into the United States. It is the goal of this program to not only cut off the flow of illegal narcotics into the area, but to take away and use the tools, proceeds and property derived from any criminal activity against the offenders. These seized tools, proceeds and property are ultimately a deterrent to criminal activity and an enhancement to law enforcement. Under the Guidelines of the Equitable Sharing Program, the funds received cannot be used to replace or supplant the police department's regularly budgeted monies but augment the police budget. These seized monies may only be used by the police department in order to augment the police budget. This purchase meets the Guidelines of the Equitable Sharing Program and will provide an important tool for the police department that otherwise would not be available without participation in the Equitable Sharing Program.

Proposals/Bids

CJIS Network Monitoring Solution	
COMPANY	AMOUNT
All Information Services Inc.	\$ 6,390 1 st year (\$1980 annually thereafter)
Armor	\$16,253.60 annually
Alert Logic	\$23,040 annually

STAFF/COMMITTEE RECOMMENDATION

Staff recommends approval of the resolution authorizing the purchase of the Security Information and Event Management system using Department of Justice award money from AIS in the amount of \$6390.

ALTERNATE CONSIDERATION

As recommended by the Committee.

DECISION MODE

We will place this item on the May 6, 2019, City Council agenda for formal consideration.

All Information Services, Inc.

Integrating the World's Technology

**Technology Solutions
Proposal For:**

City of Darien PD
1710 Plainfield Road
Darien, IL 60561

AIS, INC
March 8, 2019

Solution Proposal – Security Information and Event Management (SIEM)

AIS is pleased to present the City of Darien our Managed SIEM solution in support of the FBI's Criminal Justice and Information Services (CJIS) policy. AIS' solution complies with section 5.4 of the policy, provides a web-based portal for Darien CJIS staff to perform required weekly reviews. Included with AIS' solution is a clustered (failover/fault tolerant) based database system capable of storing 1 years' worth of data. Our solution can also be configured to send out alerts (email and text) to Darien's CJIS Officer, other identified Management personnel and AIS' 24/7 on call support hotline.

Darien systems monitored-

- 2 ASA firewalls
- 2 Windows Domain Controllers
- 1 Windows Domain Controller/File Server
- 1 Windows Exchange Server
- 1 Windows Application Server (Evidence Management System)
- 1 Windows Desktop Video Server (Squad car video)

Services and Installation:

\$4,410 – Onetime install charge

\$165 – Monthly service charge

\$55/mo Base service offering (60 days of storage)

\$110/mo Add on for 1 year of data storage

A Government discount is applied.

Above can be invoice yearly.

AIS will discount an addition 10% for a 3-year agreement, paid yearly.

We'll also include our Managed NMS service. Normally \$100/mo.
