CITY OF DARIEN

Memorandum

TO: Mayor, City Council, Clerk, and Treasurer
FROM: Bryon D. Vana, City Administrator
DATE: February 10, 2026
RE: Draft Budget- Fiscal Year Ending (FY) 4-30-2027

Attached please find a copy of the FYE 4-30-2027 draft budget. The areas of the budget that will generate the most discussion and include the largest expenses are the General, Capital Project, and Water Funds. A review of these funds are as follows:

General Fund

The City's General Fund is used to account for all revenues and expenditures except those required to be accounted for in another fund. This is the main operating fund in our budget and covers the City Council, Administration, Darien Business Alliance and Community Events, Community Development, Municipal Services-Street Division and Police Departments. It is also the main source of revenue for the Capital Projects Fund. Any surplus above the General Fund 3-month reserve is transferred to the Capital Projects Fund. The various budget fund expenses are separated into two categories:

1. **Maintenance Budget**- Maintenance Budget reflects only the anticipated cost to continue current essential activities, programs, and annual maintenance items. It may also include items that the city council has consistently approved over several years.
2. **Discretionary Budget**-Discretionary Budget expenditures relate to City services and employee items that are new, not essential or required; however, they are important in maintaining the level of citizen services and employee expenses that have been provided in previous years.

The following are budget highlights of the General, Capital Projects, and Water Funds

General Fund:

Revenue

- The proposed budget includes no increase in property taxes over the next 3 years. The city council will need to approve a tax abatement ordinance prior to the end of March, in order to maintain last year's property tax extension.

- Since the city's annual property tax levy goes to our annual police pension contribution, the city is monitoring potential new pension benefits, primarily related to the police department sworn officers. Pension benefit increases have been part of legislation that has been introduced in Springfield and lobbied by public employee unions. This includes eliminating Tier 2 pension benefits and having all public employees part of the more costly, Tier 1 benefits. While the budget includes freezing the city portion of the property tax for the next 3 years, the annual police pension contribution for the city is budgeted at FYE 27--\$3,109,271, FYE 28--\$3,575,662 and FYE 29--\$4,112,011. The draft budget was not prepared anticipating pension benefit changes to Tier 1 since that may preclude the council from budgeting for services and infrastructure improvements due to anticipating something that may not happen. Even if the Tier 1 benefit increase was approved, the city could adapt to the change with optional revenue and our strong financial position.
- Maintains a 3 month operating reserve of approximately \$4,500,000 over the next 3 years. There is a planned reduction in the transfer from the General Fund (GF) to the Capital Projects Fund (CPF) in FYE 28 and 29. This is planned in order to maintain the property tax freeze over the next 3 years. Even with the reduction in transfers to the CPF, the city maintains sufficient fund balances to fund capital projects well after FYE 29.
- The GF continues to provide for the maintenance and discretionary expenses over the next 3 years, without the need to create new or increased revenues. However, should economic changes occur over the next 3 years, the staff has identified certain revenues available to the city, if needed. I have moved some of the larger building maintenance expenses from GF operations to the CP fund over the next 3 years to avoid large fluctuations in the operations budgets.

City Council and Administration

- Funds to continue the consulting services to assist the City in resident/business communications and engagement
- Membership and Council participation in the DuPage Mayors and Managers Conference, Metropolitan Mayors Caucus, and the Illinois Municipal League and funds to allow the Mayor and Council to attend neighboring community events
- Updates to the resident and business videos included in the City's strategic plan

Community Development

- The budget includes a building *Permit Fee Holiday*, which the city had approved in previous years. The fee waiver would apply to simple permits such as fences, roofs, patios, driveways, sidewalks and sheds. The city does not incur outside fees for plan reviews and inspections for this permitted work. Staff estimated that this would result in a permit fee reduction of approximately \$21,000.
- Funds to complete the document scanning project with a focus on the documents maintained in the clerk's office
- Continuation of the new software programs used for a variety of duties such as property maintenance, building licenses, work orders, and building permits
- Continuation with improved property maintenance contractual services

Police Department

- Funding for increased police officer testing services due to reduced police lists over the last several years experienced in the police profession
- replacement or repair of existing .40 caliber pistols
- increase funding for the department social worker
- funds for various police building repairs and planning for future space needs

Municipal Services-Streets

- Includes various equipment and vehicle carryovers from FYE 26 and new replacement in accordance with the vehicle replacement plan, including the purchase of an EV truck primarily with grant money
- Continue all current core services provided by the city including, but not limited to, street sweeping, tree trimming 1750 trees, residential brush pickup, enhanced snow plowing operations, snow removal from established safety sidewalks, maintenance and fertilization of the City's previous beautification projects.
- Consultant review of the existing conditions of the city hall and police department buildings regarding necessary tuck pointing maintenance
- Completion of the replacement of the generators at the city hall and police department
- Replacement of 2 entranceway signs
- Rear yard assistance for residents experiencing poor storm water drainage

Darien Business Alliance and Community Events

- Includes funding for 3 summer concerts, Darien Fest, Fall Fest partnering with the Darien Lions Club, and the Darien Dash
- Includes a \$5,000 contingency to develop programs and services related to the newly established Darien Business Alliance

Transfers from the General Fund to the Capital Projects Fund over the 3 year budget period include FYE 27-\$2,650,000, FYE 28-\$800,000, and FYE 28-\$600,000. The city will also increase the FYE 27 transfer upon completion of the FYE 26 audit as long as general fund balance is sufficient as it has been in previous years.

Capital Projects Fund:

The Capital Projects Fund includes the City's Capital Improvement Plan (CIP). This is our multi-year plan, identifying capital projects to be funded or identified during the 3-year planning period. The City Council adopted a CAPITAL IMPROVEMENTS PLAN GUIDELINE that provides the City Council with guidelines when planning and funding capital projects.

CIP guidelines:

1. identify each capital project to be undertaken;
2. the year the improvement project will be started;
3. amount of funds expected to be expended in each year of the CIP;
4. the funding plan to complete the project/Improvement

The City's Capital Projects Fund is used to plan for the City's maintenance and construction of larger infrastructure, excluding the water system, which is accounted for in the Water Fund. Primary expenditures include road maintenance, storm water maintenance, beautification projects, and larger rights-of-way maintenance projects.

Highlights include:

- Roadway repairs to approximately 5.0 miles of city streets including base/shoulder repair, curb/gutter replacement based on city road inspections and ratings. Continue the annual crack seal and sidewalk repair program.
- Intergovernmental agreement with DuPage County to fund retaining wall/rights-of-way area at the SE corner of Plainfield Road and Cass Avenue. This is a carryover project from previous years
- Provides a \$500,000 reserve balance for emergencies or economic development incentives as directed by the council.
- I modified the expenses included in the capital projects fund to include infrastructure projects over \$100,000 in order to minimize large budget fluctuations in the general fund due to larger expenses. The larger expenses include repairs to the salt storage building, window replacement at city hall, and future expenses to provide some additional storage for public works inventory.

Water and Water Depreciation Fund:

Governmental water operations are established as enterprise funds. An enterprise fund is a fund established to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs (operating and capital improvement expenses, including depreciation) of providing water to the public on a continuing basis be financed or recovered primarily through user charges. The definition of an enterprise fund implies that sufficient user fees should be established to ensure that the utility could operate on a self-sustaining basis. The major source of revenue for the water fund is user fees.

The staff conducts a water rate analysis every year when preparing the draft budget for City Council consideration. The City's water budget for FYE 4-30-27 maintains the current resident customer rate of \$10.50 per 1000 gallons of metered water and a fixed rate of \$15 per bill. The budget includes a rate increase in FYE 28 and 29 to \$11.00 per 1000 and a fixed rate of \$20 per bill.

The primary reason for the recommended increase is to establish a sound financial reserve in the water fund and to plan for future projects necessary to operate and maintain the water system. Previously the city has completed significant water system improvements including citywide meter replacement program, partnering with DuPage County to implement an automated meter reading system, and numerous projects to minimize water loss that all water systems experience. If the city needed additional funds for larger water system improvements, the city would explore a bond.

Highlights include:

- Approximately 70% of the water fund expenses are for the direct purchase of Lake Michigan water from the DuPage Water Commission (DWC). The estimated DWC rates are \$5.90/1000 during FYE 27. The DWC purchases water from the City of Chicago.
- Significant maintenance expenses to maintain minimal amount of water loss through the system.
- Replacement of vehicles and equipment based on our replacement rating program
- Addition of \$200,000 per year over the next 3 years to repair and replace water mains.

Other Funds

These funds are routine and involve smaller expenditures including Motor Fuel Tax (MFT), and Special Service Area 1.

If you have any questions regarding this year's budget document, please feel free to contact me.

no increase. thank you.

On Mon, Nov 17, 2025 at 3:49 PM Lisa Klemm <lklemm@darienil.gov> wrote:

Maura,

Please advise. I am starting the budget process and checking in to see what your rates will be for next year (beginning May 1, 2026 thru April 30, 2027).

Thanks

Lisa

Budgetary Technology Roadmap For:

City of Darien
1702 Plainfield Road
Darien, IL 60561

January 7, 2025

Lisa Klemm
City of Darien
1702 Plainfield Road
Darien, IL 60561

Dear Lisa,

All Information Services, Inc. (AIS) appreciates the opportunity to provide your organization with the following technology roadmap. The budgetary technology roadmap will estimate possible costs and requirements for future technology applications.

At our core, we are a customer service organization with expertise as a full-service Information Technology (IT) and a Managed Service Provider (MSP). Our core competencies include technical consulting services, planning and design, infrastructure solutions, optimization, growth/budget planning and project management.

Our customers rely on our expertise in IT service delivery as a fundamental component to their core business operations. We work with clients across a variety of market segments including manufacturing, healthcare, finance, municipal, and education.

As a client of AIS, your organization will receive:

- A primary lead Tier III Engineer and Tier II Technician who will be responsible for all aspects of your IT infrastructure, while having behind them the knowledge and experience of more than 40 engineers.
- A dedicated AIS executive as your primary Account Manager to ensure consistency and continuity in establishing a long-term working relationship. We will meet quarterly and annually to review progress, status and aid in infrastructure and strategy planning.

The technology needs of the City of Darien are best served by AIS. Our proven record of accomplishment for professional installation, reliable service and quality systems technology is what our reputation is built on. We make technology work.

All Information Services, Inc. (AIS) is your trusted partner for information technology (IT) and managed services solutions. In today's complex business environment, your technology platform should help your business gain a competitive advantage in your respective market, not hold it back. Through our extensive industry experience and best practices approach, AIS can optimize your technology and help you meet your business objectives.

Budgetary Technology Roadmap Objective

Provide a budgetary technology roadmap for the City of Darien. The roadmap ideas and objectives are based on known needs, current resources in use and are in line with industry standards. The budgetary estimates below are based on current costs. This roadmap is required to be updated yearly, to reflect changes in technology, costs and the needs of the City.

2026-2027

- Comcast fiber migration *(in market)*
\$4,400 Estimated Labor
- Public Works server will be end of life. AIS recommends upgrading.
\$7,000 Dell PowerEdge Server
\$4,000 Estimated Labor
\$6,600 Microsoft Server and CAL Licensing *(one time)*
Microsoft licensing is an estimate under the Illinois Agreement and will be quoted at the time of purchase.
- The City Application Server is running an end of life Windows Server operating system and needs to be upgraded.
\$1,420 Estimated Labor
\$1,800 Microsoft Server Licensing
Microsoft licensing is an estimate under the Illinois Agreement and will be quoted at the time of purchase. *(one time)*
The above Public Works Microsoft "CAL" Licensing is required for this task.
AIS will work with 3rd software vendors as needed.
3rd party costs may apply.

- The City uses Exchange Server 2019 for email. In 2025 Microsoft announced this version's end of life in October 2025. The server is not receiving security updates. There are two options for the City to get on a supported email platform:

- Exchange Server Subscription Edition (SE)
\$2,000 Estimated Labor
\$17,000 yearly subscription services
Microsoft licensing is an estimate and under the Illinois Agreement.
A full email user audit should be performed before any purchase. Costs may go up or down.
This option uses Darien's existing "server" and with the SE Exchange version.
Some staff at Darien are using an Outlook version that is not compatible with this solution. An audit needs to be conducted, and staff identified who need an upgrade or who will use Outlook web.

- Office 365 Cloud Subscription
\$22,120 Estimated Labor
\$26,000 yearly subscription, 3 year term
Microsoft licensing is an estimate and under the Illinois Agreement.

A full email user audit should be performed and licensing type assignments before any purchase. Costs may go up or down.

Some staff at Darien are using an Outlook version that is not compatible with this solution. An audit needs to be conducted, and staff identified who need an upgrade or who will use Outlook web.

- The Uninterrupted Power Supply in Public Works IT Cabinet is over 7 years old and beyond end of life.

\$2,000 CyberPower Server UPS (Networkable/SNMP Alerts)
\$1,150 Estimated Labor

- Criminal Justice Information Services (CJIS) consulting and updating. This is subject To Policy updates and the City's needs.

See <https://www.fbi.gov/services/cjis/cjis-security-policy-resource-center>
\$2,700 Estimated ongoing maintenance labor

- Desktop hardware refresh (11 Desktops/Laptops)

\$14,000 Computers
\$6,000 Estimated Labor
\$4,200 Microsoft Office Std/Pro Licensing (Gov. Agreement)
** *The hardware estimate is based on average system specifications for City staff. Specialized systems are above and beyond this estimate.*

- City Hall Media Room Cleanup, Project.

\$590 Wall Cabinet (Secure existing equipment and cables, CJIS compliant)
\$325 Wall Cabinet APC/CyberPower UPS
\$2,805 Estimate Labor

Work with City to investigate, prep for disposal old equipment on the floor at the end of the room.

Mount a secure locking cabinet.

2027-2028

- Criminal Justice Information Services (CJIS) consulting and updating. This is subject To Policy updates and the City's needs.

See <https://www.fbi.gov/services/cjis/cjis-security-policy-resource-center>
\$2,700 Estimated ongoing maintenance labor

- Desktop hardware refresh (11 Desktops/Laptops)

\$14,000 Computers
\$6,000 Estimated Labor
\$4,200 Microsoft Office Std/Pro Licensing (Gov. Agreement)
** *The hardware estimate is based on average system specifications for City staff. Specialized systems are above and beyond this estimate.*

need to BCDR?

2028-2029

- Criminal Justice Information Services (CJIS) consulting and updating. This is subject To Policy updates and the City's needs.
See <https://www.fbi.gov/services/cjis/cjis-security-policy-resource-center>
\$2,700 Estimated ongoing maintenance labor
- Desktop hardware refresh (11 Desktops/Laptops)
\$14,000 Computers
\$6,000 Estimated Labor
\$4,200 Microsoft Office Std/Pro Licensing (Gov. Agreement)
** *The hardware estimate is based on average system specifications for City staff. Specialized systems are above and beyond this estimate.*

Roadmap Comments

- All above tasks/projects/hardware costs are estimates. These costs will be fine tuned and quoted at the time of order. Hardware estimates do not include any future Tariff increases.
- Some of the above budget roadmap items will require reoccurring subscription or maintenance agreements, which will be priced at the time of purchase.

DISCLAIMER: *All prices proposed are subject to change without prior notice due to fluctuations in tariffs, taxes, foreign exchange rates, and other unforeseen economic circumstances. These factors may impact the final cost of goods and services. In the event of a price increase, the contact person will be notified prior to the placement of the order. This notification will provide an opportunity for review and approval of the updated pricing before proceeding. By accepting this, the customer acknowledges that prices are not final and may be adjusted based on changes in tariffs and other economic conditions.*

Proposal Outline

All Information Services, Inc. (AIS) appreciates the opportunity to provide your organization with the following technology solutions proposal. It has been designed to meet your operating requirements with engagements structured to properly set and manage expectations.

Scope of Work

Engagement Overview

Provider will provide resources for the duration of the project in which Engineers, Consultant, or Project Manager will assist with various IT tasks outlined this Project Scope. During this time, the Engineers, Consultant, or Project Manager will work closely with Customer staff.

Implementation Summary

IT Project Management

- Standard Project Management - 21 Hours

Microsoft Office 365

- Mailbox Migration and End User Setup - 130 Hours
- Exchange Migration to 365 Baseline - 5

Provider Responsibilities

AIS is responsible for the following:

- Discovery
 - Kickoff Call
 - Discovery
 - Obtain CSP Authorization
 - Identify if existing billing is through Microsoft directly or through another MSP
 - Configure auto attendant
 - New Phone Setup Sheet
 - Domain admin credentials
- Design Review
 - Communicate Expectations
- Planning
 - Project Management
 - Preparation
 - Coordinate billing cutover date
- Implementation
 - Confirm that admin team has all required information
 - Assign licenses to users
- Validation
 - Complete Testing Plan
- Closing

- Update Environment Documentation
- Confirm that previous MSP Billing Agent has removed old licenses from Microsoft on agreed upon termination date

Customer Responsibilities

City of Darien is responsible for the following:

- Discovery
 - Provide all Customer Required Documentation
- Solution Design
 - Confirm Bill of Materials Accuracy
 - List of standard widgets
 - Admin access to each data source
 - Dedicated Domain Admin Level Credentials
 - Project Requirements List
 - VPN Remote Access
 - List of Phone Numbers, Extensions, and Users
 - List Of Fax Numbers and Destination Email Addresses
 - Location Physical Addresses
 - Network topology
 - Phone System Design Diagram
 - Device admin credentials
 - Contact AIS Document
 - Network Readiness Checklist
 - Current Phone Bill

Project Assumptions

- These hours are estimates. Any overages will be billed separately
- One device configuration per mailbox/end-user being migrated
- All Microsoft Licensing is procured by Customer via 3rd party responsible for the IL Gov Contract
- All user workstations must pass the Desktop Readiness Assessment; Current version of Outlook is equal to or newer than Outlook 2016.

Out of Scope

Tasks outside this SOW include, but are not limited to:

- Any work not explicitly stated in the SOW is considered not in scope and may require a change order.
- One device configuration per mailbox/end-user being migrated
- Customer is responsible for security at all Customer-Designated Locations; Provider is not responsible for lost or stolen equipment

Engagement Summary

One Time Items			
Labor			Total
IT Project Management			
Task	Tier	Est. Hours	Total
Standard Project Management	Project Manager	21	\$3,570.00
Microsoft Office 365			
Task	Tier	Est. Hours	Total
Mailbox Migration and End User Setup	Tier 2	130	\$17,550.00
Exchange Migration to 365 Baseline	Consultant	5	\$1,000.00
Labor Total			156
OneTime Total (Less Tax)			\$22,120.00
			\$22,120.00

Service Fees - Milestones

Project Milestones	Fees
Project Kickoff	\$11,060.00
Project Completion	\$11,060.00
Grand Total (Less Tax)	\$22,120.00

Services Fees will be calculated according to the Engagement Service Fee Tables. Down Payment amount is the sum of the one-time and first period of recurring amounts listed in the Engagement Pricing Summary. Quote pricing is valid until 17 Jan 2026.

To approve this proposal and the Scope of Work, please sign, date and return with the required down-payment noted above (if required). Payments should note your CLIENT PO or Internal PO. Please contact billing@aislabs.com for alternate forms of payment

If an invoice is required for this down-payment, please let us know. Once AIS receives the signed copy and the down-payment are received, work will begin.

Please note that the prices quoted are estimates and may be subject to change due to unforeseen tariff adjustments. We will inform you of any such changes and provide an opportunity to review the revised pricing before finalizing your order.

Terms and Conditions

Fixed Price

Resource	Resource Rate
Tier 1 Technician – Per Hour	\$100.00
Tier 2 Technician – Per Hour	\$135.00
Tier 3 Technician – Per Hour	\$150.00
Infrastructure Engineer – Per Hour	\$135.00
Project Management – Per Hour	\$170.00
Principal Consultant – Per Hour	\$200.00
After-Hours Work – Per Hour	\$250.00

Fixed Price Engagement is based upon:

- Project Kickoff will be scheduled within 5 business days of Provider receiving initial payment.
- Project work will start within 2 weeks from date of Project Kickoff
- Hours are Billed in quarter-hour 0.25 increments for any and all time worked by provider
- Hourly Rate for each resource is outlined as follows for remote and on-site services performed 8:30AM-5PM Central Time Zone on business days:
- On-site visits to locations within fifty (50) miles of Provider offices are to be scheduled inclusive of travel time
- On-site visits to locations more than fifty (50) miles of Provider office will require Out of Scope Travel Expenses
- Provider will follow up with client on status and upcoming requests at least monthly and Hours will be Billed accordingly

General Terms and Conditions

All quotes are subject to availability. All timelines are estimates to the best of our judgement until the approval method requirements are met from above. Any additional labor or materials which are out of scope and not listed in this scope will be executed, procured, and billed, in addition, to the quote as separate items based upon the client's approval. Equipment is warranted by their respective manufacturers.

Engagement Kickoff Meeting will be scheduled within five (5) business days of receiving the required Down-Payment or Purchase Order. Project Work Start will be at least two (2) weeks from date of Project Kickoff.

Down-payment amounts are determined by the equipment and/or labor needs, the client's history of Days Sales Outstanding (DSO) and/or history with AIS, Inc. of any kind. After the initial down-payment (if required), you will be billed upon any completion of agreed milestones or when the scope of work is completed. These bill(s) will be 'DUE UPON RECEIPT.' Any Service Fees that are marked as an 'ESTIMATE,' will be billed in actual time at milestones noted in the proposal, or when work is complete. Overdue invoices shall be subject to a monthly interest charge. In addition, the customer shall reimburse all costs and expenses for attorney fees incurred in the collecting of any amounts past due.

Projects lasting longer than one month will include monthly progress billing.

Additional Terms and Conditions are listed here: <https://aislabs.com/pricing/terms-conditions/>

AIS does provide Fair-Market-Value and \$1 buy out financing. Please reach out to your AIS representative if you wish explore these options.

Implementation Details

- IT Project Management
 - No project is too big or too small for the AIS Project Management Group. From conception to delivery, we'll help you organize and execute your project flawlessly. Our team of experts have the experience and expertise necessary to get the job done right - on time and on budget. Whether you're looking to implement a new solution or upgrade existing solutions, trust AIS to get the job done right.
 - Standard Project Management
 - Provide all Customer Required Documentation
 - Kickoff Call
 - Project Management
 - Update Environment Documentation
 - Complete Testing Plan
 - Preparation
 - Discovery
- Microsoft Office 365
 - A cloud-based subscription service that provides AIS with access to Microsoft's suite of productivity tools, including Word, Excel, PowerPoint, Outlook, and more. With Office 365, work anytime, anywhere, and on any device, making collaboration and productivity easier than ever.
 - End-user Device Setup
 - End user device setup is based on per account being setup on devices. If it's a shared computer, each user had to logon to allow the toolset to perform the migration. Shared mailboxes only require the migration tool license.
 - Transfer Existing Microsoft Office 365 Subscriptions
 - Obtain CSP Authorization
 - Identify if existing billing is through Microsoft directly or through another MSP
 - Coordinate billing cutover date
 - Confirm that admin team has all required information
 - Confirm that previous MSP/Billing Agent has removed old licenses from Microsoft on agreed upon termination date
 - Assign licenses to users
 - Communicate Expectations
 - Configure auto attendant
 - New Phone Setup Sheet
 - Domain admin credentials
 - Confirm Bill of Materials Accuracy
 - List of standard widgets
 - Admin access to each data source
 - Dedicated Domain Admin Level Credentials
 - Project Requirements List
 - VPN Remote Access

- List of Phone Numbers, Extensions, and Users
- List Of Fax Numbers and Destination Email Addresses
- Location Physical Addresses
- Network topology
- Phone System Design Diagram
- Device admin credentials
- Contact AIS Document
- Network Readiness Checklist
- Current Phone Bill

Requirements Checklist

- New Phone Setup Sheet - Microsoft Office 365: Exchange Migration to 365 Baseline
- Domain admin credentials - Microsoft Office 365: Exchange Migration to 365 Baseline
- List of standard widgets - Microsoft Office 365: Exchange Migration to 365 Baseline

Sent: Thursday, January 8, 2026 11:54 AM
To: Lisa Klemm <LKlemm@darienil.gov>
Subject: AIS - Follow up

Hi Lisa,

Attached highlighted is for Exchange SE. It is MORE than \$16k, I've updated the roadmap. (4th attachment)

- The City uses Exchange Server 2019 for email. In 2025 Microsoft announced this version's end of life in October 2025. The server is not receiving security updates. There are two options for the City to get on a supported email platform:
 - Exchange Server Subscription Edition (SE)

\$2,000 Estimated Labor

\$17,000 yearly subscription services

Microsoft licensing is an estimate and under the Illinois Agreement.

A full email user audit should be performed before any purchase. Costs may go up or down.

This option uses Darien's existing "server" and with the SE Exchange version.

Some staff at Darien are using an Outlook version that is not compatible with this solution. An audit needs to be conducted, and staff identified who need an upgrade or who will use Outlook web.

Start Date	2 weeks after down payment is received.
End Date	TBD

Proposal Outline

All Information Services, Inc. (AIS) appreciates the opportunity to provide your organization with the following technology solutions proposal. It has been designed to meet your operating requirements with engagements structured to properly set and manage expectations.

Implementation Details

- AIS Managed BCDR
 - AIS Managed BCDR combines Datto or Unitrends technology with AIS expert management to deliver secure, fully managed backups, proactive monitoring, and rapid recovery in the event of a disaster. This ensures minimal downtime, protection against ransomware and data loss, and compliance with key industry standards.

Scope of Work

Engagement Overview

Implementation Summary

IT Project Management

- Standard Project Management - 3 Hours

AIS Managed BCDR

- Backup Agent Installation - 1 Servers or VMs
- Physical Appliance Implementation - 1 Physical Appliance

Provider Responsibilities

AIS is responsible for the following:

- Discovery
 - Kickoff Call
 - Discovery
- Planning
 - Project Management
 - Preparation
- Validation
 - Complete Testing Plan
- Closing
 - Update Environment Documentation

Customer Responsibilities

City of Darien is responsible for the following:

- Discovery

- Provide all Customer Required Documentation

Project Assumptions

- These hours are estimates. Any overages will be billed separately
- The client will provide administrative access credentials to target servers or virtual machines to facilitate installation and configuration of the Datto or Unitrends agent software.
- Target machines meet all minimum hardware and operating system requirements necessary to support the Datto or Unitrends agent software, including CPU, memory, disk health, and available storage space.
- No conflicting backup software or agents exist on target machines; any such software will be identified and removed by the client prior to installation.
- The client's network environment will allow necessary outbound communications from installed agents to both the local Datto or Unitrends appliance and the Datto or Unitrends Cloud, with appropriate firewall and DNS settings configured.
- Adequate system resources on target machines will be available during installation and ongoing backup processes without negatively impacting production workloads.
- Antivirus or security software on target systems will be configured to permit operation of the Datto or Unitrends agent software without disruption.
- The client agrees to cooperate during the installation process by providing timely responses and access to infrastructure as needed.
- Initial full backup (seed) operations may require sufficient network bandwidth and scheduled maintenance windows to avoid operational disruptions.
- The client environment meets Datto or Unitrends hardware placement requirements (rack space, power, cooling, weight support).
- Adequate LAN connectivity (1 Gbps minimum, 10 Gbps preferred) and internet bandwidth (minimum 100–300 Mbps upstream as appropriate to data volumes) is available.
- Reliable WAN connectivity exists with minimal latency for cloud replication and cloud recovery.
- The client network allows outbound connections required for Datto Cloud replication and AIS remote monitoring.
- Client workloads are supported by Datto SIRIS virtualization standards and are not running unsupported operating systems or legacy hardware dependencies.
- Cloud Retention (INF-RET or 1YR-RET) is understood by the client as tied to ongoing subscription; if subscriptions lapse, historical retention will terminate.
- AIS is not responsible for application-level recovery validation outside of system-level restore and access tests.
- The client assumes responsibility for overall compliance in its industry; AIS, Datto, and Unitrends provide compliant infrastructure (HIPAA, SOC 2 Type II, GDPR, PCI DSS support).
- In the event of disaster, recovery may be performed either locally (on the physical device) or in the Datto or Unitrends Cloud, subject to available internet bandwidth and current Datto or Unitrends Cloud capacity SLAs.
- Cloud-based recovery (instant virtualization) assumes DNS/network redirection can be performed by the client.
- AIS's ongoing management services, as included in this engagement, cover day-to-day monitoring, backup verification, and system health oversight. Full Disaster Recovery execution and data restoration activities are available upon request and may be subject to additional service fees outside the scope of standard management.

Out of Scope

Tasks outside this SOW include, but are not limited to:

- Any work not explicitly stated in the SOW is considered not in scope and may require a change order.
- Troubleshooting or remediation of operating system or hardware issues unrelated to the Datto SIRIS agent software installation.
- Management, removal, or configuration of third-party security, antivirus, or backup software beyond necessary compatibility checks required for the Datto agent.
- Network infrastructure configuration beyond enabling outbound connections and firewall port exceptions necessary for Datto agent communication.
- Performance optimization or tuning of protected servers or VMs beyond confirming hardware and resource prerequisites.
- Application-level recovery and data restoration activities, including detailed restores of individual applications or databases, are the client's responsibility or subject to separate professional services engagements.
- Execution of full disaster recovery events, including initiation of failover processes and comprehensive data restoration, are not included under the standard management services and may incur additional charges.
- Configuration and management of client network security, including firewalls, VPNs, and network access controls, are outside the scope of AIS's service.
- Compliance auditing, documentation, and certification activities related to HIPAA, SOC 2, GDPR, PCI DSS, or other standards are excluded from this engagement.
- Formal disaster recovery testing, including planning, coordination, and execution, is excluded from day-to-day management and requires separate arrangements with the client.

Engagement Summary

One Time Items			
Labor			Total
IT Project Management			
AIS Managed BCDR			
Task	Tier	Est. Hours	Total
Standard Project Management	Project Manager	3	\$510.00
Task	Tier	Est. Hours	Total
Backup Agent Installation	Tier 2	0.5	\$67.50
Physical Appliance Implementation	Tier 2	16	\$2,160.00
Labor Total			19.5
Service	Unit Price	Quantity	Total
Setup Fees	\$2,869.65	1	\$2,869.65
Service Total (Less Tax)			\$2,869.65
OneTime Total (Less Tax)			\$5,607.15

Monthly Items			
Service	Unit Price	Quantity	Total
AIS Managed Unitrends BCDR 4VM 1YR-RET - 14.08TB - 3YR COMMIT - PAID M2M	\$2,869.65	1	\$2,869.65
Service Total (Less Tax)			\$2,869.65
Monthly Total (Less Tax)			\$2,869.65

Service Fees - Milestones

Project Milestones	Fees
Project Kickoff	\$1,368.75
Project Completion	\$1,368.75
One-Time Hardware + Service Setup Fees	\$2,869.65
Grand Total (Less Tax)	\$5,607.15

Services Fees will be calculated according to the Engagement Service Fee Tables. Down Payment amount is the sum of the one-time and first period of recurring amounts listed in the Engagement Pricing Summary. Quote pricing is valid until 08 Feb 2026.

To approve this proposal and the Scope of Work, please sign, date and return with the required down-payment noted above (if required). Payments should note your CLIENT PO or Internal PO. Please contact billing@aislabs.com for alternate forms of payment

If an invoice is required for this down-payment, please let us know. Once AIS receives the signed copy and the down-payment are received, work will begin.

Please note that the prices quoted are estimates and may be subject to change due to unforeseen tariff adjustments. We will inform you of any such changes and provide an opportunity to review the revised pricing before finalizing your order.

Terms and Conditions

Fixed Price

Resource	Resource Rate
Tier 1 Technician – Per Hour	\$100.00
Tier 2 Technician – Per Hour	\$135.00
Tier 3 Technician – Per Hour	\$150.00
Infrastructure Engineer – Per Hour	\$135.00
Project Management – Per Hour	\$170.00
Principal Consultant – Per Hour	\$200.00
After-Hours Work – Per Hour	\$250.00

Fixed Price Engagement is based upon:

- Project Kickoff will be scheduled within 5 business days of Provider receiving initial payment.
- Project work will start within 2 weeks from date of Project Kickoff
- Hours are Billed in quarter-hour 0.25 increments for any and all time worked by provider
- Hourly Rate for each resource is outlined as follows for remote and on-site services performed 8:30AM-5PM Central Time Zone on business days:
- On-site visits to locations within fifty (50) miles of Provider offices are to be scheduled inclusive of travel time
- On-site visits to locations more than fifty (50) miles of Provider office will require Out of Scope Travel Expenses
- Provider will follow up with client on status and upcoming requests at least monthly and Hours will be Billed accordingly

General Terms and Conditions

All quotes are subject to availability. All timelines are estimates to the best of our judgement until the approval method requirements are met from above. Any additional labor or materials which are out of scope and not listed in this scope will be executed, procured, and billed, in addition, to the quote as separate items based upon the client's approval. Equipment is warranted by their respective manufacturers.

Engagement Kickoff Meeting will be scheduled within five (5) business days of receiving the required Down-Payment or Purchase Order. Project Work Start will be at least two (2) weeks from date of Project Kickoff.

Down-payment amounts are determined by the equipment and/or labor needs, the client's history of Days Sales Outstanding (DSO) and/or history with AIS, Inc. of any kind. After the initial down-payment (if required), you will be billed upon any completion of agreed milestones or when the scope of work is completed. These bill(s) will be 'DUE UPON RECEIPT.' Any Service Fees that are marked as an 'ESTIMATE,' will be billed in actual time at milestones noted in the proposal, or when work is complete. Overdue invoices shall be subject to a monthly interest charge. In addition, the customer shall reimburse all costs and expenses for attorney fees incurred in the collecting of any amounts past due.

Projects lasting longer than one month will include monthly progress billing.

Additional Terms and Conditions are listed here: <https://aislabs.com/pricing/terms-conditions/>

AIS does provide Fair-Market-Value and \$1 buy out financing. Please reach out to your AIS representative if you wish explore these options.

Early Termination Clause

1. Termination Rights: This Agreement shall commence on the Effective Date and shall continue in full force and effect for a term of three (3) years ("Initial Term"), unless earlier terminated in accordance with this Clause.

2. Early Termination by Client: The Client may elect to terminate this Agreement prior to the expiration of the Initial Term by providing the Service Provider with written notice of its intention to terminate ("Early Termination Notice"). Upon providing such notice, the Client agrees to comply with the early termination procedure set out in this Clause.

3. Notice Period: The Client shall provide a minimum of sixty (60) days' written notice to the Service Provider prior to the desired termination date.

4. Early Termination Fee: In consideration of costs incurred and loss of expected profits arising from the termination of this Agreement prior to the completion of the Initial Term, the Client agrees to pay the Service Provider an early termination fee. Such fee shall be calculated as follows: Fifty

percent (50%) of the average monthly charges multiplied by the number of months remaining in the Initial Term at the time of termination. This early termination fee is due and payable within thirty (30) days of the effective date of termination.

5. Waiver of Early Termination Fee: The early termination fee may be waived by the Service Provider at their sole discretion under the following circumstances: (a) mutual agreement to terminate the Agreement due to unforeseen circumstances that significantly impact the Client's ability to continue the Agreement; or (b) in the event that the Service Provider breaches the Agreement, and such breach remains uncured for a period of thirty (30) days following written notice of such breach by the Client.

6. Obligations upon Termination: Upon any early termination of this Agreement, the Client shall be obligated to pay for all services rendered up to the termination date, in addition to the early termination fee, if applicable. Any amounts owed by the Client to the Service Provider under this clause shall survive the termination of this Agreement.

7. Effect of Termination: Termination of this Agreement shall not affect the rights and obligations of the parties accrued prior to the effective date of termination.

Implementation Details

- IT Project Management
 - No project is too big or too small for the AIS Project Management Group. From conception to delivery, we'll help you organize and execute your project flawlessly. Our team of experts have the experience and expertise necessary to get the job done right - on time and on budget. Whether you're looking to implement a new solution or upgrade existing solutions, trust AIS to get the job done right.
 - Standard Project Management
 - Provide all Customer Required Documentation
 - Kickoff Call
 - Project Management
 - Update Environment Documentation
 - Complete Testing Plan
 - Preparation
 - Discovery
- AIS Managed BCDR
 - AIS Managed BCDR combines Datto or Unitrends technology with AIS expert management to deliver secure, fully managed backups, proactive monitoring, and rapid recovery in the event of a disaster. This ensures minimal downtime, protection against ransomware and data loss, and compliance with key industry standards.
 - Backup Agent Installation
 - Configure Backups for each Server or VM
 - Physical Appliance Implementation
 - Configure Physical AIS Managed BCDR appliance.

Subject: RE: Lisa - Bob with CDS - Sourcewell Contract Pricing

Good morning Lisa,

For FY27 planning purposes, I can provide **budgetary pricing** based on today's costs. Since this purchase would occur after May 1, 2026, pricing may adjust before then, but this will give you a solid number for budgeting.

Budgetary Total (current pricing): \$5,145

Configuration includes the HP Color LaserJet Enterprise E75245dn with 12×18 support, additional tray, stand, and reporting tool.

The E75245dn is part of HP's managed print line, designed for **cost effectiveness and high reliability**. It uses high-yield supplies to help lower long-term operating costs, provides consistent color output, and includes enhanced security and reporting features to support departmental oversight and usage tracking. It's built for continuous departmental workloads and long lifecycle performance.

If it would be helpful, I can also provide a couple of **multifunction (print/scan/copy)** options from other manufacturers where we're more competitive on pricing. These can be useful if you'd like to compare consolidation or workflow options.

Lisa,

Yes — the closest match to your HP LaserJet 5550dtn is the **HP Color LaserJet Enterprise E75245dn**, which also supports **12×18 (SRA3)** printing. I'll attach the full specs. I have included an image of the E75245dn configured with the additional paper tray and stand per your current configuration of the 5550dtn.

If you'd like to review the options together, I have availability **Thursday and Friday mid-day**.

“The only way to build trust is to put the work in.”

HP Color LaserJet Managed E75245 Printer series

Count on productivity, premium quality, maximum uptime, and the strongest security.

HP LaserJet printers power office productivity with a smart, streamlined design that's reliable and hassle-free. Count on premium quality, maximum uptime, and the strongest security—all intended to drive successful organizations forward.

HP Color LaserJet Managed E75245dn

Professional color printing

- Print premium, professional-quality documents with vivid color images and graphics.
- Consistent professional quality and performance - Original HP Toner cartridges and drums with JetIntelligence.
- Look professional on every page with vibrant, high-quality color prints that stand the test of time.

Minimal interruptions. Maximum productivity.

- Change the toner and drum in seconds. Both are easily accessible and come already installed out of the box.
- Avoid interruptions with an HP LaserJet printer designed for maximum productivity.
- Tailor this printer to meet the needs of your business with a wide range of paper-handling accessories.
- Grab pages and go, without waiting. This HP LaserJet wakes up quickly and prints fast—up to 46 ppm.²

The world's most secure printing¹

- Each printer in your fleet checks its operating code and repairs itself from attacks.
- Your printer's outgoing network connections are inspected to stop suspicious requests and thwart malware.
- Memory activity is monitored to continually detect and stop attacks
- Firmware is automatically checked during startup to determine if it's authentic code—digitally signed by HP.

Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. <http://www.hp.com/go/learnaboutrsupplies>

¹ Based on HP review of 2018 published security features of competitive in-class printers. Only HP offers a combination of security features that can monitor to detect and automatically stop an attack then self-validate software integrity in a reboot. For a list of printers, visit <http://hp.com/go/PrintersThatProtect>. For more information: <http://hp.com/go/printersecurityclaims> ² Measured using ISO/IEC 24734, excludes first set of test documents. For more information, see <http://hp.com/go/printerclaims>. Exact speed varies depending on the system configuration, software application, driver, and document complexity.

HP Services

Downtime can have serious consequences, so HP provides support beyond the standard warranty. You benefit from reduced risk, maximized uptime, predictable service delivery and no unbudgeted repair costs. HP Care Pack Services provide a comprehensive suite of protection services designed to keep HP hardware and software up and running so employees can stay productive.

For carepack availability visit: hp.com/go/cpc

Top features

Expect premium marketing materials and professional-quality documents with vivid color images and graphics. Built for great color performance and a toner formula designed for consistent quality and brilliant color output.

Annoying interruptions and complex maintenance can slow down printing and the pace of business. Avoid pauses in productivity with an HP LaserJet Printer designed for maximum uptime, so you can count on reliable results day in and day out.

HP printers have the industry's strongest security¹ because they're always on guard, continually detecting and stopping threats while adapting to new ones. And only HP printers automatically self-heal from attacks, so IT doesn't need to intervene.

J3 Events, Inc.

Race Timing Contract

Race Date/Start: **Sunday, May 17, 2026** Starts: **8:30 a.m.**

Race Location: **1001 Hinsbrook Avenue, Darien, IL 60561**

Name of Race: **Darien Dash**

Type of Race: **10K, 5K, & 1 Mile Fun Run**

Contact: **April Padalik, (630) 353-81111, apadalik@darienil.gov**

This contract outlines service agreement between J3 Events, Inc. (J3E) and Darien Business Alliance in connection with the event held above.

1. Timing Services Subject to the terms and conditions of this Agreement J3 Events, Inc agrees to:

- Provide Blowup Structure at Start/Finish Line (same location)
- RFID chip timing at start line and finish line
- Overall and age group results live during event and posted online within 24 hours on www.i3timing.com
- Manual race day data entry of participants registering on race day
- Set up online registration, and post race results online (www.j3timing.com)

2. 3. Client Terms: Client agrees to comply with the following requirements:

- Provide 2 Volunteers** to assist at finish line during the race
- Client agrees that J3E places great emphasis on race scoring accuracy but cannot be held liable for errors in the registration process, incomplete data (incomplete forms, illegible forms, etc), improper bib wear by participants (discarding bib during race, wearing bib on shorts/back, etc.)
- Will provide additional chips above the number of registered participants, but will bill \$1.50 per chip not returned or adhered to a custom race bib
- We hereby release, waive, and discharge J3E, its directors, officers, employees, and agents from liability from any and all claims resulting in personal injury, accidents, and property loss from, but not limited to, use of equipment or services provided by J3E. Furthermore, we hold liability insurance for this event and J3E will be considered covered under this policy.

3. Payment and Terms: Upon completion of event timing, client will pay to J3E the sum of:

- **\$750 Base Equipment Setup**
- **\$2.25 per registered participant**
- **\$0.67 per mile to and from event from New Lenox, IL**
- **\$7.50 Shipping of Race Bibs**
- **Manage Race Day Registration/Awards (\$350) – 1 J3 employee, 5 race volunteers**

NO DEPOSIT REQUIRED FOR THIS EVENT. Please sign and return by December 11, 2025 to secure your event.

I, _____ (Bryan Vana, City of Darien Administrator,, agree to the terms and conditions of this

Agreement on _____ (Date).

Performance Engagement Agreement

THIS AGREEMENT is for the personal services of musicians on the engagement described below and is made on 1/15/2026 (date) between:

Organizer: City of Darien – April Padalik
Artist: Like A Stone – Kevin K Vesel

Event Details

1. Event Name: Darien 4th Annual Oktoberfest
2. Venue/Address: Westwood Park, 7451 Fairview Ave, Darien, IL
3. Date: October 3, 2026
4. Call Time: _____
5. Performance Begin Time: 7:00 PM
6. Performance End Time: 9:30 PM
7. Number and Duration of Break(s): 1 break for 15 minutes

Compensation

1. Performance Fee: \$1,000
2. Deposit Paid: \$0
3. Payment Due Date: Day of Performance, Prior to Performance Start Time
4. Check Made Payable To: Kevin K Vesel

Technical Requirements

1. The ARTIST shall provide a list of technical, equipment, Stage Layout, and stage requirements necessary for the performance no later than 30 days prior to the performance.
2. The ARTIST shall provide monitors and XLR Splitting to ARTIST's mixer. The event will be recorded by the ARTIST to be utilized for future promotional purposes.
3. Front of House Sound Provided by: ORGANIZER
4. Lighting Provided by: ORGANIZER
5. Stage and Power Provided by: ORGANIZER
6. Backline Provided by: ORGANIZER
7. Sound Engineer Provided by: ORGANIZER
8. The ORGANIZER shall provide bottled water to ARTIST as requested.
9. Parking shall be provided for up to 6 parking spaces within a reasonably convenient distance to the venue stage for the duration of the event and allow for ample load-in and load-out time.

Liability Clauses

1. The ARTIST is not liable for damages caused by technical failures outside their control.
2. Inclement weather. The decision to postpone or cancel the event will be made by the ORGANIZER by 11:00 AM the day of the event.
3. ARTIST will promote the event online, social media, etc.
4. ARTIST is not an employee of ORGANIZER and executes this contract as an independent contractor.
5. This constitutes the entire agreement between ORGANIZER and ARTIST and may not be modified, changed, or terminated in any way except in writing signed by both parties.

This Contract will be executed upon both party signatures.

Entertainment Contract

Issuance of Contract: Dec 19, 2025

It is hereto agreed that Village of Darien (the "Purchaser") engages UAP Enterprises LLC, DBA UAP Event Services (the "Agent") Acting as Agent for Fuze (the "Artist(s)") for entertainment services and bound by the terms and conditions set forth herein.

1. **Event Date(s):** Thursday, June 25, 2026
2. **Event Location:** Darien Summer Concerts - EXACT LOCATION TBA, Darien, IL,
3. **Artist to Perform:** Fuze
4. **Load In Time:** 4:30 PM
5. **Performance Start Time:** 6:30 PM
6. **Performance End Time:** 9:00 PM
7. **Set Structure:** 2-70 Min Sets
8. **Wages:** \$1,900.00
- 8a. Artist to be paid on site by Purchaser rain or shine.
- 8b. **Artist agrees to pay UAP Event Services a commission of 10%. Artist to send UAP contracted commission within 14 days after event date.**
9. **Deposit Due by Purchaser:** N/A
- 9a. If applicable, purchaser is to send deposit check, if applicable, made out to UAP Event Services and mailed to 10204 Bode St, Unit D, Plainfield, IL 60585 by the contracted due date.
10. **Sound Provided By: Event** 10a. **Lighting Provided By: Event**
11. **Purchaser Provisions:** Exact performance location to be announced by 3/1/2026. Purchaser will provide artist with complimentary water as available. In the event of inclement weather, artist will be paid in full or be provided with a safe and dry area to perform.
12. **Artist Provisions:** Artist will promote event via online outlets. Artist will not perform another public show within a 4 mile radius 1 week before or 1 week after event date, unless approved by purchaser and/or agent.
13. **Force Majeure:** The present contract will be invalid if an act of God occurs. In no event shall either party be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation to, strikes, work stoppages, epidemics, accidents, pandemics, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God. In such cases each party will assume their respective expenses.
14. If Artist is rebooked at venue and/or by Purchaser within two calendar years after engagement date, Artist is liable for payment of commission to UAP Event Services at the same commission rate and wage as this engagement.
15. Payment by Purchaser after completion of the services shall be deemed acknowledgement between both parties that the quality of the services is satisfactory to Purchaser and shall release Artist(s) from any and all liability and claims to Purchaser regarding such services.
16. If Artist is unable to perform after signature of this contract, Agent reserves the right to replace Artist with comparable act for comparable wages, with Purchaser approval.
17. If Purchaser fails to comply with any of its responsibilities hereunder, Artist(s) may terminate this Agreement and retain any amounts paid by Purchaser prior to such termination.
18. Artist(s) is not an employee of the Purchaser. Artist(s) executes this contract as an independent contractor placed by Agent. UAP Enterprises LLC, DBA UAP Event Services is the acting employment agency facilitating this contract between Artist(s) and Purchaser. UAP Enterprises LLC, DBA UAP Event Services assumes no liability or claims under this contract.
19. Purchaser and/or agent reserve the right to change performance times at their sole discretion. This agreement may not be transferred and/or assigned to a third party by either the Artist(s) or the Purchaser.
20. This constitutes the entire agreement between Purchaser and Artist(s), and may not be modified, changed, or terminated in any way except in writing signed by both parties. This Agreement shall be governed by and construed in accordance with the laws of Illinois. Any legal actions, claims or demands shall be handled in a court of competent jurisdiction within Du Page County.

IN SIGNING THIS AGREEMENT, the parties hereto have executed this Agreement.

In such cases each party will assume their respective expenses.
14. If Artist is rebooked at venue and/or by Purchaser within two calendar years after engagement date, Artist is liable for payment of commission to UAP Event Services at the same commission rate and wage as this engagement.
15. Payment by Purchaser after completion of the services shall be deemed acknowledgement between both parties that the quality of the services is satisfactory to Purchaser and shall release Artist(s) from any and all liability and claims to Purchaser regarding such services.
16. If Artist is unable to perform after signature of this contract, Agent reserves the right to replace Artist with comparable act for comparable wages, with Purchaser approval.
17. If Purchaser fails to comply with any of its responsibilities hereunder, Artist(s) may terminate this Agreement and retain any amounts paid by Purchaser prior to such termination.
18. Artist(s) is not an employee of the Purchaser. Artist(s) executes this contract as an independent contractor placed by Agent. UAP Enterprises LLC, DBA UAP Event Services is the acting employment agency facilitating this contract between Artist(s) and Purchaser. UAP Enterprises LLC, DBA UAP Event Services assumes no liability or claims under this contract.
19. Purchaser and/or agent reserve the right to change performance times at their sole discretion. This agreement may not be transferred and/or assigned to a third party by either the Artist(s) or the Purchaser.
20. This constitutes the entire agreement between Purchaser and Artist(s), and may not be modified, changed, or terminated in any way except in writing signed by both parties. This Agreement shall be governed by and construed in accordance with the laws of Illinois. Any legal actions, claims or demands shall be handled in a court of competent jurisdiction within Du Page County.

Any NEW program/activity/equipment costing in excess of \$5,000
BUDGET REQUEST FORM
FYE 27

Department: Community Development

Fund: 4325

Project/Program Title: Laserfische – Clerk's office

Description of proposed new program/activity/expenditure, including purpose and justification:

The city clerk's office currently has a significant number of files and various records. These records are permanent records and need to be preserved.

In order to digitalize the Clerk's office, the City Staff will need to coordinate efforts with TKB Associates, representing Laserfiche, to pick up records, scan and catalogue. The project costs include the above services including hardware and software programming.

Estimated Budget:

(COST SHOULD INCLUDE DELIVERY & ANY OTHER CHARGES)

Has this request been submitted before? Yes No

If yes, how many times:

SUBMITTED BY: *Dan*

Recommended by City Administrator: Yes _____ No _____

AGENDA MEMO

City Council

May 6, 2024

ISSUE STATEMENT

A resolution accepting a proposal from TKB Associates, Inc., for digitalizing, cataloging, software, hardware and programming in an amount not to exceed \$68,615 for the Municipal Services Department

AND

A resolution accepting a proposal from TKB Associates, Inc., for digitalizing, cataloging, software, hardware and programming in an amount not to exceed \$49,015 for the Community Development-Building Division Permit files.

BACKGROUND/HISTORY

The City currently has a significant number of Public Works files consisting of plans, infrastructure projects, policies and various departmental records. It is estimated there are 375,000 documents.

Many of the records are permanent records and need to be preserved. The records are a history of infrastructure projects, field drawings and correspondences as it relates to the City infrastructure, property concerns and file. Attached and labeled as Attachment A, is the costs related to the Municipal Services Department.

The Community Development-Building Division Permit files also has a significant number of permit files containing an estimated 110,000 various records. These records are permanent records and need to be preserved. The records are a history of building records and surveys for all physical structures within the City. Attached and labeled as Attachment B, is the costs related to the Community Development Department.

The goal of the projects is to reduce the physical footprint of paper files, preserve records, through a secure I-Cloud data base storage and management system. Further benefits to digitizing are ease of searching, retrieving, and reproducing documents from Staffs work station. Please note that contingencies have been included within the respective Attachments.

The scope of work, for both departments includes the following:

- Pickup and Delivery of Documents
- Conversion of paper files to digital
- Cataloging and Indexing
- Software and Licensing
- Hardware
- Misc Programming

Laserfische is a tool that is currently used with the Accounting, Municipal Services-large format plans, and the Police Department with very satisfactory results. Additional services through AIS will be required to modify the server for the hardware and software. The proposed expenditure would be expended from the following line items:

ACCOUNT NUMBER	ACCOUNT DESCRIPTION	FY24-25 BUDGET	PROPOSED EXPENDITURE
01-30-4325	Laserfische Scanning	\$68,615	\$68,615
01-20-4325	Laserfische Scanning	\$49,015	\$49,015

COMMITTEE RECOMMENDATION

The Municipal Services Committee recommends approval of a resolution accepting a proposal from TKB Associates, Inc., for digitalizing, cataloging, software, hardware and programming in an amount not to exceed \$68,615 for the Municipal Services Department

AND

A resolution accepting a proposal from TKB Associates, Inc., for digitalizing, cataloging, software, hardware and programming in an amount not to exceed \$49,015 for the Community Development-Building Division Permit files.

ALTERNATE DECISION

As recommended by the City Council.

DECISION MODE

This item will be on the May 6, 2024 City Council agenda for formal consideration.

FROM: Sergeant Rumick

DATE: December 1, 2025

SUBJECT: Proposal to Replace Glock 22 Duty Weapons

Introduction: The current Glock 22 handguns issued to officers are coming up on 11 years old and require costly maintenance to keep them operational and reliable. Given the age and wear of these firearms, it is no longer cost-effective to continue repairs and upgrades. This proposal seeks to replace the department-issued Glock 22s with a new, more sustainable model by having officers purchase a department-approved Glock handgun and receive reimbursement from the department. This change will not only modernize the department's firearms but also shift the responsibility of maintenance to the individual officer, ensuring consistent performance and reducing department maintenance costs.

Current Situation:

- The department currently owns 41 Glock model 22 handguns which were purchased in July 2015. The firearms are beginning to show significant wear and require costly maintenance to maintain reliability and safety.
- Selling these Glock 22s would generate revenue, which would be returned to the federal seized assets account.

Proposal:

1. Sell the Existing Glock 22s:

The department would sell the 38 of the Glock 22 handguns, with the proceeds being deposited into the federal seized assets account. This will not only recoup a portion of the department's investment but also provide a means to allocate these funds toward officer reimbursements. The remaining 3 firearms would be kept for TI training and 1 for the display in the front lobby.

2. Officers to Purchase Department-Approved Firearms:

Officers will be required to purchase a department-approved Glock handgun for duty use by June 1st 2026. Options would include any of the Glock Generation 5 standard, subcompact, or compact pistols in the approved calibers: 9mm, 40, or 45.

3. Reimbursement to Officers:

The department will reimburse officers for the full cost of their firearm. The

reimbursement will be processed once the officer has purchased the firearm and provided the necessary receipts and documentation.

4. Ownership and Maintenance Responsibility:

The officer will own the firearm, allowing them to have personal responsibility for its maintenance and care. This shift will reduce long-term maintenance costs for the department and ensure officers are using well-maintained and reliable equipment.

5. Cost Savings and Benefits:

- Estimated Cost for 36 sworn:
 1. Purchase firearm and optic: Kielser Police Supply currently lists the Glock MOS with the Holosun optic for \$781.32. Total cost \$28,128. I recommend reimbursing officers for the purchase of both if they choose to do so.
 2. Purchase firearm only: Kielser Police Supply currently lists the Glock MOS with fixed night sights for \$529.60. The total estimated cost would be \$19,066.
- **Reduced Maintenance Costs:** By transferring ownership and maintenance responsibility to the officer, the department will eliminate the ongoing costs of maintaining and repairing aging firearms.
- **Modernization of Equipment:** Officers will have access to newer, more reliable firearms, improving both officer safety and performance in the field.
- **Increased Accountability:** With individual ownership, officers will be more invested in the upkeep and functionality of their firearm.

Conclusion: This proposal aims to modernize the department's firearm inventory, reduce ongoing maintenance costs, and ensure officers are equipped with reliable, well-maintained handguns. By selling the current Glock 22s and implementing a reimbursement program for officers to purchase department-approved firearms, the department will enhance operational efficiency and safety while maintaining fiscal responsibility.

I recommend moving forward with this transition to improve overall departmental readiness and firearm reliability.

Sincerely,

Sgt. Doug Rumick

MOTION NO. M-57-25

AGENDA MEMO

City Council
August 4, 2025

ISSUE STATEMENT

A motion accepting the expenditure of Equitable Sharing Funds to purchase hardware and services from Flock Safety for six Automatic License Plate Readers (ALPR) in the amount of \$38,900.00.

BACKUP

BACKGROUND/HISTORY

The City began using Flock Safety's ALPR in April of 2024. The initial deployment consisted of ten camera installations at strategic locations within the City. For over a year, officers have used the product and have begun to utilize the tool in crime detection, prevention, and investigation.

The additional cameras will aid police to further and more completely monitor motorists entering and leaving the City who have committed or intend to commit crimes within our community.

This agreement is to expand our ALPR network by adding six more cameras to the community at five locations. The initial cost for installation and service will be \$19,600, followed by an annual cost of \$19,300 (year two).

Previously, staff have explored other options for ALPR, and Flock Safety was chosen. Keeping with the continuity of Flock Safety, no other company was explored. Each company uses its proprietary software for monitoring and detection. It would be cumbersome and prohibitive to deploy other ALPR at this point.

The federal requirement for using vendors is vendors must be vetted through System for Award Management (SAM.gov). The company is a qualified vendor.

ACCOUNT NUMBER	ACCOUNT DESCRIPTION	BALANCE 07-14-2025	PROPOSED EXPENDITURE
17-41-4217	Federal Equitable Sharing Account	\$68,597.55	\$38,900.00

The Darien Police Department is a proud participant in the United States Department of Justice and the United States Department of Treasury Equitable Sharing Program for State and Local Law Enforcement Agencies. For the last several years the Darien Police Department has participated in federal task forces whose goal is to stem the flow of illegal narcotics into the Chicago metropolitan area which is one of the major hubs for illegal narcotics coming into the United States. It is the goal of this program to not only cut off the flow of illegal narcotics into the area, but to take away and use the tools, proceeds and property derived from any criminal activity against the offenders. These seized tools, proceeds and property are ultimately a deterrent to criminal activity and an enhancement to law enforcement. Under the Guidelines of the Equitable Sharing Program, the funds received cannot be used to replace or supplant the police department's regularly

MOTION NO. M-57-25

budgeted monies but augment the police budget. These seized monies may only be used by the police department in order to augment the police budget. This purchase meets the Guidelines of the Equitable Sharing Program and will provide an important tool for the police department that otherwise would not be available without participation in the Equitable Sharing Program. The cash balance of this fund is \$68,597.55 as of July 14, 2025.

STAFF/COMMITTEE RECOMMENDATION

Committee recommends a motion accepting the expenditure of Equitable Sharing Funds to purchase hardware and services from Flock Safety for the purpose of adding ALPR to the City of Darien's already existing cameras in the amount of \$38,900.00.

ALTERNATE CONSIDERATION

As recommended.

DECISION MODE

This item will be placed on the August 4, 2025, agenda for formal Council consideration and approval.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 4th day of August 2025.

DARIEN POLICE DEPARTMENT

INTEROFFICE MEMORANDUM

August 20, 2025

TO: Chief Thomas

FROM: Deputy Chief Jump *RAO*

VIA: Direct

SUBJECT: Local Adjudications

ISSUE STATEMENT

This review evaluates whether Darien should expand local adjudications to include first-time, non-aggravated DUI cases. It also considers whether hearings should remain at the DuPage County Courthouse in Wheaton or be moved to City Hall, to promote public safety, maximize efficiency, and analyze the financial and logistical impact for both the Police Department and the City.

CONSIDERATIONS

In 2024, Darien officers made 70 DUI arrests and issued 1,743 traffic citations. Currently, the DuPage County State's Attorney's Office prosecutes all felony cases, along with traffic and misdemeanor offenses under state law, including DUI.

The City also contracts with Attorney Christine Charkewycz-Dziuk (up to \$36,000 annually) to prosecute ordinance violations such as petty traffic and misdemeanor criminal cases. However, her work does not extend to DUI prosecutions.

Expanding local adjudications to cover DUI cases could give Darien more control over case outcomes, improve scheduling efficiency, and allow the City to retain a larger share of fine revenue. Because DUI cases represent a high-volume, high-impact category, they present an opportunity for specialized local attention.

COURT VENUE OPTIONS

1. City Hall Council Chambers

Expand current administrative hearings at City Hall to include DUI cases prosecuted under City ordinance.

2. Wheaton Courthouse (status quo)

Continue handling DUI cases at the DuPage County Courthouse.

DISCUSSION

Costs

Operating DUI adjudications at City Hall would require additional expenses:

- Judge: \$275 per hour
- Local prosecutor: approximately \$150 per hour
- Court frequency: minimum of two sessions per month
- Officer overtime: In 2024, 448 hours were spent on traffic court overtime. Running court at both Wheaton and City Hall would likely double this figure. With the current seven-year patrol officer overtime rate of \$86.16 per hour, this could add an estimated **\$38,600 annually** in overtime costs.

Keeping adjudications in Wheaton avoids these costs and logistical challenges while maintaining the existing court structure.

Citation Fine Assessment

- *Prepaid traffic tickets (Supreme Court Rule 529)*: \$164 total; Darien receives \$50 (\$48 to the General Fund, \$2 to the E-citation Fund) on both State and Local citations.
- *Ordinance prosecutions*: Darien retains 100% of fines (minimum \$120 per ordinance 9-5-4), plus court costs and fees such as DUI technology fees.
- *Current revenue*: The City averages \$17,000 per month in court fines and fees across all adjudicated cases.

Scope of Local Adjudications

If adjudications remain limited to petty traffic, misdemeanor traffic, and misdemeanor criminal offenses, the financial benefit will remain modest. Expanding to include first-time, non-aggravated DUIs, however, would bring significant advantages.

Private attorneys specializing in DUI law often provide more expertise than State's Attorney prosecutors, who rotate through traffic court. Expanding local adjudications would:

- Give Darien greater influence over case outcomes
- Improve coordination between prosecutors and officers, ensuring officers remain current on best practices and case law
- Reduce unnecessary officer court appearances, lowering overtime costs
- Increase revenue: up to **\$52,500 annually** (70 cases × \$750 average fine)

OTHER CONSIDERATIONS

City Hall Occupancy

City Hall currently shares its parking lot with the Police Department. The lot has approximately 100 spaces, of which 20 are reserved for City-owned vehicles and about 25 are needed daily for City employees. In addition, the Police Department's training room can accommodate up to 32 seats for NEMRT training classes, further limiting available parking and building capacity. These constraints would make it difficult to host regular court proceedings at City Hall without disrupting daily City and Police operations.

Keeping adjudications in Wheaton avoids these added expenses, space limitations, and logistical challenges while maintaining the existing court structure.

Law Firm Options

- *Moore Norton Law Group* – \$1,000 per week (\$52,000 annually); serves Carol Stream, Lisle, Lombard
- *Marquardt & Belmonte Attorneys* – \$3,500 per month (\$42,000 annually); serves Roselle, Wood Dale, Bensenville, Elmhurst, West Chicago, Wheaton, Itasca
- *Ann Marie Lampariello, Lamp Law LLC* – \$3,750 per month (\$45,000 annually); serves Westmont, Oak Brook, Downers Grove, St. Charles

RECOMMENDATION

Darien should expand local adjudications to include first-time, non-aggravated DUI offenses **while continuing to hold proceedings at the Wheaton Courthouse**. This approach maximizes the financial and operational benefits of local DUI prosecution without incurring the substantial costs and scheduling challenges of running court at City Hall.

To support this expansion, it is recommended that the City contract with **Marquardt & Belmonte Attorneys** at \$42,000 annually. Their competitive pricing, broad municipal experience, and recommendation by Assistant State's Attorneys and other municipalities make them the most strategic partner for Darien.

BUDGET REQUEST FORM
Maintenance Budget FYE27

Department: Police Department Fund: 40-4815

Project/Program Title: Rags Electric and Albrite

Description of proposed new program/activity/expenditure, including purpose and justification:

Rags: Currently, the emergency generator for the PD powers some electrical outlets in the event of a ComEd failure. Those outlets, currently powered, are dated (prioritizing outlets no longer of need), where other outlets are now a priority. This request will allow configuration and updated prioritization of the emergency generator's power in a time of power outage.

Rags: The police department (building) is approximately 30 years old. Many of the building's light fixtures are dated, offering varied technologies of created light. This request is to update the majority of the building's internal lighting to LED.

Albrite: The police department (building) is approximately 30 years old. There are various areas throughout the building where old technologies have been removed, or cracks have developed over the years. PW and PD staff located areas where updates are needed.

Year purchased: Various and Unknown Original Cost: Initial Request

Estimated Budget:

BUDGET REQUEST FORM
Maintenance Budget FYE27

Department: Police Department Fund: 40-4815

Project/Program Title: Booking Maintenance

Description of proposed new program/activity/expenditure, including purpose and justification:

The police department (building) is approximately 30 years old. The booking facility cabinets and countertops are all original and in a state of disrepair. The request is to update the counters and cabinets and maintain consistency with previous projects completed in recent years

Year purchased: Various and Unknown Original Cost: Initial Request

Estimated Budget:

Account #	Account Name	Cost
40-4815	Maintenance – Booking Maintenance	\$8,000

Has this request been submitted before? Yes X No

If yes, how many times: N/A

AGENDA MEMO

City Council

June 2, 2025

ISSUE STATEMENT

A motion accepting the proposal of a 12-month subscription for the Mini-Road Weather Information Systems sensors from Frost Solutions, LLC, in an amount not to exceed \$19,600. See Exhibit A.

BACKGROUND/HISTORY

The Road Weather Information Systems provides vital road temperature during the winter season. The equipment is positioned on light poles throughout the City's 7 snow regions and allows Staff to implement the optimal anti and/or deicing products on the roadways. Pending the conditions warranted through the equipment, savings are realized on deicing products, road salt usage and staffing. The Staff continues to utilize the data provided for winter events to deliver optimal anti-icing and deicing operations. While the winter was relatively mild since its implementation, the information offered valuable data in preparing for the roadway treatment in ongoing or upcoming events. Below are additional bullet points regarding the units:

- Alarms can be set to notify us when certain weather conditions are being met for pavement temp, air temp, humidity, dew point
- Real time data about conditions in our City versus at locations surrounding us like airport, highway weather points or the City of Chicago
- Winter Storm mode pulls real time images every 20 minutes for the duration of impactful winter weather events.
- Real time conditions of the roads

Frost Solutions Mini-RWIS Sensor is the exclusive product and service that is exclusively manufactured and sold by Frost Solutions, LLC. See Attachment A.

The FY 25-26 Budget included funds for the subscription and would be charged against the following account:

Account Number	Account Description	FY 25-26 Budget	Expenditure
01-30-4213	Streets-Dues & Subscriptions Frost Solutions road temp sensors	\$9,950	\$9,800
02-50-4213	Water-Dues & Subscriptions Frost Solutions road temp sensors	\$9,950	\$9,800

COMMITTEE RECOMMENDATION

The Municipal Services Committee recommends accepting the proposal of a 12-month subscription for the Mini-Road Weather Information Systems sensors from Frost Solutions, LLC, in an amount not to exceed \$19,600.

ALTERNATE CONSIDERATION

As directed by the City Council.

DECISION MODE

This item will be placed on the June 2, 2025 City Council agenda for formal consideration.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 2nd day of June 2025.

AYES: 6 – Belczak, Kenny, Leganski, Schauer, Stompanato, Sullivan

NAYS: 0 – NONE

ABSENT: 1 -Gustafson

ORDER FORM
FROST SOLUTIONS, LLC & City of Darien, IL
PROPOSAL DATE: 05/12/2025

All Frost Solutions products are non-invasive and include a self-install hardware unit, access to the web application, service and support, and product replacement (if necessary). Frost Solutions maintains ownership of the hardware unit at all times. Historical data, configurable alerts, and unlimited user accounts are included with subscription.

Frost Solutions Mini-Weather Station					
Hardware					
Solar + battery-powered low-light camera and sensor unit providing surface temperatures, still shot images (day and night), air temperature, dew point, humidity, and lens defroster.					
Additional Included Application Services: On-demand image requests, Frost Vision AI Image Assessment, atmospheric and surface temperature and condition forecasting, and image retrieval.					

Product	Term	Quantity	Unit Cost	Year 1 Cost	Term Total
Mini-Weather Station Renewal - Annual Lease Subscription - Jul 1, 2025 - Jun 30, 2026	12 Months	7	\$ 2,800.00	\$ 19,600.00	\$ 2,800.00

	Grand Total \$ 19,600.00

Payment Terms	
Date Due	Amount
Jul 31, 2025	\$19,600.00

TERMS & CONDITIONS

This Order Form, in conjunction with the Master Service Agreement, which is incorporated herein by reference, establishes the commercial relationship between Frost Solutions, LLC and the Customer. The parties acknowledge that they have read, understand, and agree to the terms and conditions of this Order Form and the related Master Service Agreement that is either attached to this Order Form or was included with a prior Order Form. In the event of a discrepancy between the terms of this Order Form and the Master Service Agreement, the Master Service Agreement shall control.

PAYMENTS, REFUNDS, & CANCELLATIONS

Customer shall pay all fees specified in this Order Form without offset or deduction. Customer shall make all payments hereunder in U.S. Dollars on or before the due date set forth in this Order Form. Except as otherwise specified herein, (a) fees are based on services purchased and not actual usage or services provided; (b) payment obligations are non-cancelable; (c) fees paid are non-refundable; and (d) the services purchased cannot be decreased during the relevant Term. Customer may terminate this Order Form at any time, however such termination shall not result in any refund of payments previously made or cancellation of any future payment(s) due as set forth in this Order Form to Frost Solutions, LLC during the current Term, but only results in the termination of automatic renewals and any future payments caused by such automatic renewals no longer being due to Frost Solutions, LLC.

Any NEW program/activity/equipment costing in excess of \$5,000

BUDGET REQUEST FORM

FYE 26

Department: Street and Water Department Fund: 01 & 02

Project/Program Title: Vaisala in road sensors

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

This would be for a 3 year trial of 5 in pavement temperature sensors. We would core a hole in a road and insert the pavement sensor. The sensors would provide three temperature readings, surface, and two subsurface temperatures. Over the past several years we have seen the importance of surface temperature in relation to winter operations. These sensors would not only tell us what is happening surface level but also subsurface which is important as it relates to how winter chemicals will work or how precipitation will affect our roadways.

Estimated Budget:

Account #	Account Name	Cost
01-30-4213	Street Department – Capital Purchases Equipment	\$5,000.00
02-50-4213	Water Department – Capital Purchases Equipment	\$5,000.00
	Total	\$10,000.00

Assumptions and Stipulations

1. Quote is valid for 30 days from issuance
2. Installation materials including Fabick epoxy for GroundCast and a telescopic pole for TempCast are included
3. Subject to Vaisala General Conditions of Subscription Services ([link](#)) and Service description for Cast sensors with Wx Horizon Pro (below): <https://www.vaisala.com/en/vaisala-policies>
4. Wx Horizon & Cast sensor annual price is based on a 3-year term subscription commitment. Shorter terms may be considered at a higher price and can be quoted upon request
5. Excludes installation
6. Ground Cast Sensors require a minimum mounting depth of eighteen inches (18")
7. Customer is responsible for utility locates at desired Ground Cast installation locations
8. Cellular NB-IOT coverage should be available wherever Verizon has service but must be confirmed at each location prior to installation
9. Sensors with updated firmware will be available in June of 2024
10. Invoice frequency can be tailored to quarterly, semi-annual, or annual intervals with the default being annual billing

With signature below, City of Darien, IL (Customer) agrees to a 3-year contract commitment for a total of \$24,000 with an annual billing frequency.

Service description

Vaisala Cast™ Sensors with Wx Horizon Pro

Vaisala Cast™ Sensors complement the Vaisala Wx Horizon Pro weather hazard information system with accurate observations from critical locations. With a single Wx Horizon Pro subscription with predictable costs and continuous warranty, users can access both in-situ observations and road weather point forecasts from sensor locations. The Cast Sensors wirelessly collect environmental data from key locations and provide this for Wx Horizon to generate actionable information to help plan road winter maintenance operations.

1. Features

Vaisala Wx Horizon Pro weather hazard information system for road condition situational awareness

- Leverages Vaisala industry-leading sensors and world-class forecasting capabilities
- Provides road weather condition forecasts using Vaisala proprietary road weather model
- Provides access to data through a web user interface optimized for providing support for winter maintenance decisions, and through a REST API

Vaisala Cast™ Sensors

- Utilize Vaisala leading technology to measure key environmental parameters
- Wirelessly connect to Vaisala cloud
- Are fully autonomous with built-in power and communication
- Have minimum 3-year battery lifetime with no maintenance needs

Vaisala Cast™ Connect mobile application for sensor activation

- Is available free of charge from Google Play Store and vaisala.com
- Intuitively guides the user through the sensor activation process
- Ensures adequate cellular field strength at the installation location

2. Communication

- Cast Sensors are delivered together with a SIM-card for 24/7 connectivity
- Connectivity is subject to activating the sensors using the Cast Connect mobile application to ensure adequate cellular field strength at installation location
- Cellular communication costs are included in the subscription fee
- Data availability is subject to the availability of cellular service

Note: choosing a location with good cellular field strength will increase the battery lifetime of the sensors and make replacement need less frequent. The Cast Connect mobile application will assist by providing a visual indication of field strength before the activation.

3. Data license, access, and security

Vaisala grants the customer a non-exclusive license to use the sensor and the forecast data during the contract term for internal business purposes. A more complete description of the legal terms and conditions governing the subscription service is in the General Conditions of Subscription Services of Vaisala Group:

<https://www.vaisala.com/sites/default/files/documents/DOC250754-A-General-Conditions-of-Subscription-Services.pdf>.

A 3-year history dataset is stored at Vaisala and is available for the customer through the user interface and API.

The API is a cloud-hosted REST API deployed to multiple service regions for performance and resilience.

Data security is ensured in all parts of the data chain:

- Public key infrastructure (PKI) is used for managing device certificates
- TLS/DTLS secure protocols are used for data transmission
- Security audited SW components are used in cloud system software

4. Sensor shipping, installation, and replacement

- Upon reception and confirmation of a subscription order, Vaisala will ship the Cast Sensor hardware to the customer. The sensor will remain the property of Vaisala.
- The customer is responsible for installing the sensor according to the instructions and using the tools provided by Vaisala. Vaisala has no responsibility for incorrectly installed sensors and the effects thereof. The customer is responsible for ensuring that all laws and local regulations related to safety, environmental compliance, road closures, and site installation procedures are followed.
- Vaisala will monitor the sensors 24/7/365 and will proceed to ship replacement sensors in case of data loss due to non-functional sensor hardware, for example loss of battery power.
- Before shipping a replacement unit, Vaisala will contact the customer for a confirmation.
- Replacements included in the subscription fee only apply to sensors with no physical damage beyond normal wear and tear. In the event there is physical damage, a fee may apply for the sensor replacement.
- De-installation of old sensors and installation of replacement sensors are not included in the subscription fee. Please contact Vaisala sales to discuss and get a quote for the installation work.
- The customer is responsible for the removal of sensors after their lifetime and recycling them according to local regulations and instructions provided by Vaisala. Failing to do this, the customer accepts full liability for any environmental or hazard-related issues. The customer will also have an option to ship the sensors at their own cost to Vaisala for recycling.

5. Invoicing

The invoicing period for the Wx Horizon Pro subscriptions is 12 months, unless otherwise specified in purchase documentation. Invoicing period starts 30 days after the shipment of the Vaisala Cast Sensors associated with the subscription.

6. Technical support

Vaisala support team is available 365 days a year to receive service requests through

MyVaisala support channel. See the local contact details at www.vaisala.com/en/support.

The official language of the technical support is English.

7. Service availability

Vaisala strives to keep the service available 24/7, excluding necessary maintenance breaks or downtime caused by interruptions in services beyond Vaisala control, such as cloud or cellular service provider. For a more complete description, refer to the General Conditions of Subscription Services of Vaisala Group.

8. Maintenance and service breaks

We generally provide scheduled maintenance and updates of the Wx Horizon service without breaks to service availability or data measurement collected from Vaisala products. If maintenance or updates cannot be carried out without a break to the service availability, we will notify customer of such breaks through email and/or the Wx Horizon service itself. In case there are unexpected service breaks, we shall within normal office hours attempt to recover the service as soon as possible.

9. Summary of responsibilities

Vaisala responsibility	Customer's responsibility
<ul style="list-style-type: none">• Delivers sensor units upon start of the subscription and in case of data loss due to faulty sensor hardware• Provides a SIM card and cellular data communication• Provides an account and credentials for cloud hosted Wx Horizon software, with the Wx Horizon Pro feature set• Monitors sensors and proactively reacts to data interruptions• Provides observation and point forecast data for sensor locations through an API and on the Wx Horizon cloud user interface	<ul style="list-style-type: none">• Adopts and pays periodic subscription fees, in accordance with the applicable terms and conditions• Installs sensors based on instructions and tools provided by Vaisala, observing laws and local regulations• Removes and recycles sensors according to local regulations

Department: Street & Water Fund: 01 & 02

Project/Program Title: GPS Route Camera unit 7 trucks

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: Original Cost:
This new program would give us real time access to on board material usage, routes and GPS Data. The information is useful to determine if staff is following instructions from management in regards to material usage during winter storm events. It can be utilized to determine if systems actually fail or if staff is turning them off for whatever reason. We can also see exactly how a vehicle is traveling around town or through a plow section. We can then proactively coach drivers based on route information. Can also load in route for driver to follow for whatever reason we determine. The GPS and route data can also be utilized to prove or dispel resident complaints about speeding or lack of service calls. This would be an annual subscription service. First year would include some setup cost.

Estimated Budget:

Project/Program Title: Vactor Maintenance Agreement

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: 2024 Original Cost: \$548,000.00

The proposed program would be for entering into a service agreement with Standard Equipment for the newly purchased Vactor Truck. City Staff would take the truck into Standard several times a year depending on service interval requirements in order to have major system components reviewed and serviced. Due to the highly technical and mechanical nature of the truck staff recommends taking the truck in for expertise service. We feel that this will help the City stay ahead of major unknown service requirements. This is protecting the City's investment in a wonderful tool that the Department utilizes for sewer cleaning, sewer line jetting & hydro-excavations.

AGENDA MEMO
City Council
May 5, 2025

ISSUE STATEMENT

A motion to accept a proposal for a Preventative Maintenance Agreement, Annual Evaluation and Operator Training for the Vactor Sewer Cleaner from Standard Equipment in an amount not to exceed \$8,500.

BACKGROUND/HISTORY

The service agreement is for the recently purchased Vactor Sewer Cleaner and is provided by Standard Equipment. The company is the authorized manufacturer's representative for the equipment. The service agreement relates to reviewing the equipment for deficiencies and warranties as it relates to the truck chassis, hydraulics and electronic components, see attached proposal labeled as Exhibit A. Any items requiring repairs will be replaced or repaired upon the city Mechanic's approval. The agreement also includes additional multi-day training for all the employees at scheduled intervals. The Mechanic will be attending and engaging with additional hands on training for mechanics at a future independent multi-day event.

Standard Equipment is the sole authorized agent for the geographic region and the agreement is for one year.

The proposed expenditure would be expended from the following line accounts:

ACCOUNT NUMBER	ACCOUNT DESCRIPTION	FY 25-26 BUDGET	PROPOSED EXPENDITURE	PROPOSED BALANCE
01-30-4229	Maintenance Vehicles Vactor Service Agreement	\$ 7,500	\$ 4,250	\$ 3,250
02-50-4229	Maintenance Vehicles Vactor Service Agreement	\$ 7,500	\$ 4,250	\$ 3,250

COMMITTEE RECOMMENDATION

The Municipal Service Committee recommends approval of a motion to accept a proposal for a Preventative Maintenance Agreement, Annual Evaluation and Operator Training for the Vactor Sewer Cleaner from Standard Equipment in an amount not to exceed \$8,500.

ALTERNATE DECISION

As recommended by the City Council.

DECISION MODE

This item will be on the May 5, 2025 City Council agenda for formal consideration.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 5th day of May 2025.

MOTION NO. M-74-25

AGENDA MEMO

City Council

October 6, 2025

ISSUE STATEMENT

A motion accepting Driving a Cleaner Illinois-Volkswagen Grant through the Environmental Protection Department/Organization Unit: Bureau of Air, in the total amount of \$298,395, and approving the City share of \$149,197, for a total cost not to exceed \$447,592 for the purchase of one (1) electric dump truck vehicle and one (1) electric charging unit as per Exhibit A.

BACKGROUND

The City was recently notified of a grant award through the Bureau of Air, funded by the 2016 Volkswagen settlement for Clean Air Act violations. The Volkswagen Environmental Mitigation Trust was established to reduce nitrogen oxide (NOx) emissions through the replacement of older diesel/gasoline vehicles with cleaner alternatives.

In compliance with grant requirements, the City must retire a vehicle with a model year engine between 1992–2009. Ordinance No. O-18-23, passed on November 6, 2023, previously declared the 2009 Sterling LT7500 Truck No. 408 as surplus. Due to ongoing mechanical issues with diesel particulate sensors on several trucks, Truck 408 remained in temporary use but was not auctioned and subsequently allowing it to qualify for this grant.

Grant guidelines mandate permanent removal, (scraping) of Truck 408, including:

- Drilling a 3-inch hole in the engine block
- Severing the truck bed frame in half

The grant funds will support the purchase of one (1) Class 4–8 all-electric truck to replace the retired vehicle, see truck pic labeled as Attachment A. While the original truck has since been replaced, the new EV truck will serve as an additional fleet vehicle, providing:

- Hauling capacity for both street and water divisions
- An opportunity for City staff to evaluate the functionality and performance of electric trucks
- No snow plowing capability; dedicated to hauling operations only

The EV truck will be housed at the Municipal Services Facility with a dedicated charging station installed onsite.

The total estimated cost to the City is approximately \$150,000, which includes:

- The required match for the grant-funded electric truck
- The cost of installing an electric vehicle charger

A separate agenda memo will be presented for the actual purchase of the vehicle and the charging infrastructure upon grant acceptance and bid results of the vehicle/charging station. The cost will be split equally between the water fund and general fund. Please note, pending production dates and delivery, the vehicle may not be delivered until after May 1, 2026.

STAFF RECOMMENDATION

Staff recommends a motion accepting Driving a Cleaner Illinois-Volkswagen Grant through the Environmental Protection Department/Organization Unit: Bureau of Air, in the total amount of \$298,395, and approving the City share of \$149,197, for a total cost not to exceed \$447,592 for the purchase of one (1) electric dump truck vehicle and one (1) electric charging unit.

COMMITTEE RECOMMENDATION

This item was not reviewed by the Municipal Services Committee due to the timing of the grant approval and processing.

ALTERNATE CONSIDERATION

As directed by the City Council.

DECISION MODE

This item will be placed on the October 6, 2025 City Council agenda for formal approval.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 6th day of October 2025.

TERMS AND CONDITIONS	
Grantee Indirect Cost Rate Information	Rate: N/A Base: N/A Period: N/A
Research & Development	No
Cost Sharing or Matching Requirements	No
Uniform Term(s)	CODE of FEDERAL REGULATIONS Title 2: Grants and Agreements PART 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR 200) Grant Accountability and Transparency Act (GATA), 30 ILCS 708/1 Illinois Administrative Code
Grantor-Specific Term(s)	
Program-Specific Term(s)	<ul style="list-style-type: none"> • Grantee shall replace an eligible existing Class 4-8 diesel truck or Class 8 port drayage truck licensed and used on public roadways with a new Class 4-8 all-electric truck or Class 8 all-electric port drayage truck licensed and used on public roadways in which both the existing diesel truck and new all-electric truck are of the same truck type and class. • Grantee must own the new all-electric truck. • Each diesel truck to be replaced should be the one described in the application and be engine model year 1992-2009. • The existing diesel truck to be replaced and the new all-electric truck have at least 80% of their annual operational hours in the Chicago area and be used to haul and deliver freight or cargo consistent with the same priority level area identified in the application. • The new all-electric truck must have an engine model year in which the project occurs (or later) or one engine model year prior. • Grantee must annually certify that each new all-electric truck had at least 80% of its annual operational hours in the Chicago area and operated consistent with the priority level area identified in the application each year for a minimum of five years from the in-service date. • Grantee must certify that it will maintain adequate charging infrastructure for each all-electric truck. • Scrappage: All vehicle replacement projects require the replaced engine and vehicle to be scrapped within 90 days of the new engine/vehicle being placed into service. "Scrapped" is defined in the Trust Agreement to mean to render inoperable and available for recycle, and, at a minimum, to specifically cut a 3-inch hole in the engine block. It shall also include disabling the vehicle chassis by cutting the vehicle's frame rails completely in half. Evidence of appropriate disposal must be provided, including digital photos of the engine tag (showing serial number, engine family number, and engine model year), the destroyed engine block, and cut frame rails as applicable. • If program income, as that term is defined in 2 CFR 200.80 and 44 Ill. Adm. Code 7000.20, is generated by selling the scrapped engine and/or vehicle, the program income requirements at 2 CFR 200.307 apply. Grantee may use program income towards its mandatory cost share. Grantee must report program income to Grantor. • The Driving a Cleaner Illinois Program is a reimbursement program. Grantee is required to pay for all project work and seek reimbursement from the Illinois EPA upon completion. Grantee must provide all required documentation. Upon project completion and receipt of all required documentation, the Illinois EPA will request the Volkswagen Trustee to reimburse Grantee directly. • Grantee may not use Trust funds to satisfy obligations that are mandated by law or regulation, by any court order or decree, or by other agreement of any kind. • Grantee may use other funding (federal, state or other) as part or all of its mandatory cost share, provided such other funding source allows for it. • Grantee is prohibited from combining funding from this program with other funding such that it receives more than 100% funding for any project. • Eligible Costs were established in the NOFO. • Grantee must submit quarterly reports and a final report as required by the Grantor. • Grantee must complete a Fiscal and Administrative Risk Assessment for each State fiscal year that its grant agreement is in effect. • This project is subject to approval by the Volkswagen Trustee.

Project/Program Title: 9 TON TRI AXEL DECKOVER TRAILER

Description of proposed new program/activity/expenditure, including purpose and justification:

City staff recommend the replacement of the existing pipe trailer based on a recent evaluation conducted by the City mechanic. This trailer is a critical piece of equipment used to deliver pipe and construction materials to job sites and to pick up supplies from local vendors. Replacing the trailer will improve safety, reliability, and efficiency in daily operations.

The current trailer has reached the end of its useful life and would require extensive repairs, including a new deck, structural steel repairs, and replacement of rotted bottom beams. Due to the scope and cost of these repairs, replacement is considered the most cost-effective option.

The proposed replacement trailer will include spring-assist loading ramps to reduce physical strain on operators and enhance jobsite safety. It will also be equipped with an optional 10-ton dual-axle configuration, providing increased load capacity and improved operational flexibility.

BUDGET REQUEST FORM

FYE27

Department: MUNICIPAL SERVICES Fund: STREET

Project/Program Title: Commercial Landscape Mower

Description of proposed new program/activity/expenditure, including purpose and justification:

The Department is requesting funding for the purchase of a commercial-grade zero-turn riding lawn mower to support citywide turf maintenance operations. This equipment is essential for maintaining approximately 33 acres of turf, as well as various rights-of-way, open spaces, and detention basins located throughout the community.

The new mower will replace the oldest Kubota riding mower, which has now reached the end of its useful life. According to the mechanic's cost-vs-repair life cycle evaluation, the existing unit is no longer cost-effective to maintain due to frequent repairs, increasing downtime, and diminishing reliability. Investing in a new commercial-grade mower will ensure our crews can continue to provide efficient, high-quality service while reducing maintenance costs and avoiding operational delays during the peak mowing season.

Year purchased: _____ Original Cost: 15,000

FYE 27

Department: Streets

Fund: Streets and Water

Project/Program Title: 40 Foot Storage Container and lot improvement

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Staff recommends purchasing a storage container to store seasonal holiday decorations. The proposed placement site is at the rear of the property, near the existing parking area. This plan includes carving out a section of the landscape berm near the abandoned well, without anticipating any impact to the well, constructing a retaining wall, and widening and extending the rear lot northward with a stone base and asphalt. Any debris removed from the site will require testing and proper disposal.

Estimated Budget:

Subject: Up Dated - Container Sales Group Quote- Delivered to Darien, IL

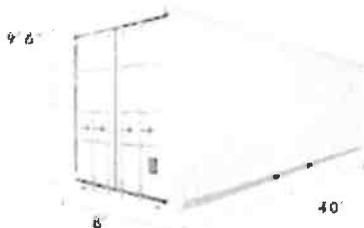

(630) 417-5146

Dennis-

It was nice talking with you. Here is the quote you requested.

Depot Facility: Chicago

40' HIGH CUBE

New/One-Trip Containers (see below sample pictures) -

Description: Manufactured overseas and loaded with cargo to make a one-way trip to the United States. Some units may have minor surface dings or light dents from moving the freight in and out of the container. These units have solid floors, strong enough to hold a forklift and heavy cargo. Ideal for Storage, Ocean Export or Building.

\$ 4,300.00 for 1 x 40 ft. High Cube (9 ft. 6 in. high x 8 ft. wide)

Delivery:

\$ 498.00 approximate (need exact address) to deliver & place on the ground to Darien, IL

**** Due to market fluctuations, all pricing and delivery dates are estimates based on the information available at the time of the quote and are subject to change****

HOW TO PURCHASE - Call our office or email us the following information and we will email you an invoice

- Company Name & Contact Name
- Phone & Address for Billing & Delivery
- Door Position- Doors Facing REAR (sliding off first) or CAB (sliding off last)- shipping container will slowly slide off the back of the truck as the driver pulls forward, please advise on how you want the container loaded on the truck.
- Delivery Contacts- The driver will call once he is loaded and is on his way. Provide 2 delivery contacts- name & telephone numbers.

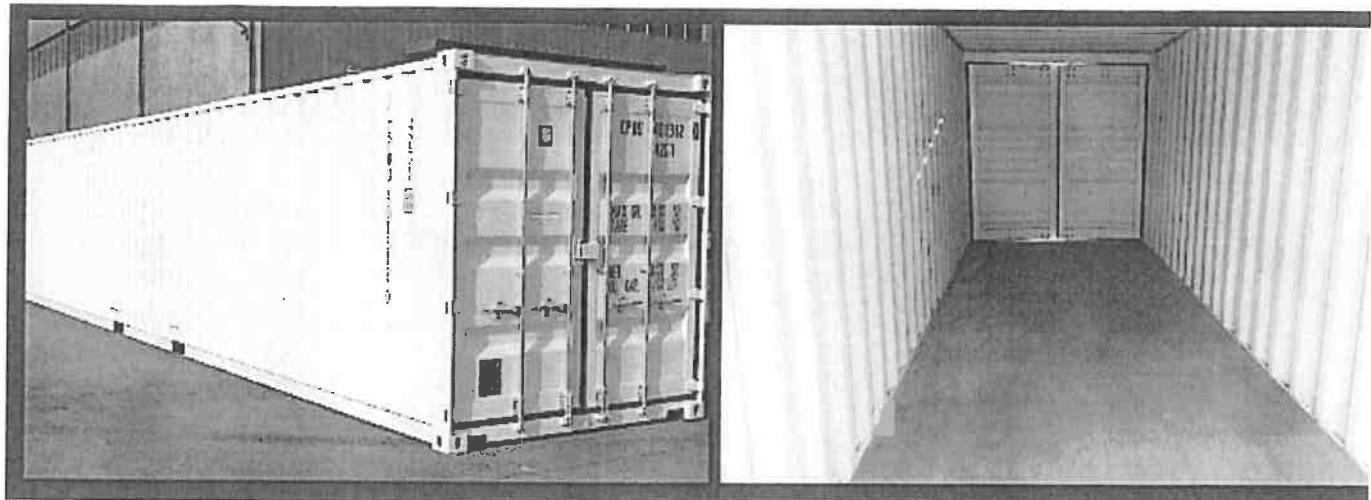

PAYMENT OPTIONS – Invoice will be sent via QUICKBOOKS with a link to REVIEW AND PAY. Advise which payment option you prefer:

- (no fee) - e-check/ACH – you will need your checking account & routing #
- (3% fee)- Credit Card/Debit Card
- (no fee)- Mail Check to Container Sales Group 4479 Lawn Ave # 300 - Western Springs, IL 60558

DELIVERY REQUIREMENTS:

- **Straight-line Space Needed-** The delivery truck will back up and slowly slide the container off as he pulls forward
 - 75 ft. - for 1 x 20 ft. container
 - 150 ft. - for 1 x 40 ft. container or 2 x 20 ft. (moved together)
- **12 ft. Width Clearance** -Trucks make wide turns, so make sure there is enough space to turn into your property and get between gates or other obstructions.
- **16 ft. Height Clearance- No Wires or Trees Above** - The tilt body truck bed will hydraulically lift up behind the driver's cab as the container slowly slides off on the ground as the truck pulls forward.
- **Level, Solid Ground**

BUDGET REQUEST FORM

FYE27

Department: Street and Water Fund: 4815

Project/Program Title: Mini-Split Heating and Cooling System Installed for the PW Office Area

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: Various Years for existing Furnaces and AC Condensers

Original Cost: Unknown

The PW Office Area struggles to stay warm during the winter and cool during the summer time. Often times the units run for extended periods of time for the relatively small space. During summer it is not uncommon for the office area thermostat to register temperatures in the mid 80's despite 70 degree and even instances of 60 degree temperature settings. Working in the office at these temperatures is very uncomfortable and staff becomes sweaty and leaves their office due to conditions. In the winter there are still spaces that remain uncomfortable with cold temperatures despite low 70 degree temperature thermostat set points. Windows will form ice on the inside and staff reports having to leave their office due to having cold fingers making it uncomfortable to work. The proposed mini-split units will assist each space in heating and cooling by supplementing the existing units. We believe the ductless system with units in each portion of the office area to be the ideal solution to the problem. They will supplement the existing units in both operations. Project will need Electrical work as well and we don't know if any unknown issues will be ran into so I am estimating a little higher than usual on the contingency.

Estimated Budget:

Account #	Account Name	Cost
01-30-4815	Street Department Building Maintenance	\$10,150.00
01-30-4815	Street Department Building Maintenance - Contingency	\$5,000.00
02-50-4815	Water Department Building Maintenance	\$10,150.00
02-50-4815	Water Department Building Maintenance - Contingency	\$5,000.00
	Project Total	\$30,300.00

Department: Municipal Services

Fund: Streets and Water

Project/Program Title: 9 TON TRI AXEL DECKOVER TRAILER – Hydro Seeder

Description of proposed new program/activity/expenditure, including purpose and justification:

City staff recommend the replacement of the existing pipe trailer based on a recent evaluation conducted by the City mechanic. This trailer is a critical piece of equipment used to deliver pipe and construction materials to job sites and to pick up supplies from local vendors. Replacing the trailer will improve safety, reliability, and efficiency in daily operations.

The current trailer has reached the end of its useful life and would require extensive repairs, including a new deck, structural steel repairs, and replacement of rotted bottom beams. Due to the scope and cost of these repairs, replacement is considered the most cost-effective option.

The proposed replacement trailer will include spring-assist loading ramps to reduce physical strain on operators and enhance jobsite safety. It will also be equipped with an optional 10-ton dual-axle configuration, providing increased load capacity and improved operational flexibility.

**BUDGET REQUEST FORM
Maintenance Budget – FYE27**

Department: Municipal Services Fund: 25-35-4376

Project/Program Title: Wildwood Storm Sewer Project

Description of proposed new program/activity/expenditure, including purpose and justification:

Existing site conditions during significant rainfall events, as well as winter freeze-thaw cycles, result in periods of standing water and ice accumulation adjacent to the curb and gutter fronting 7710 and 7714 Wildwood Court. The cul-de-sac was constructed without curb inlets or stormwater infrastructure and therefore relies solely on the curb and gutter to convey runoff approximately 150 feet to the nearest inlet located on Regency Grove. The roadway is also scheduled for resurfacing this year.

The proposed scope of work includes the installation of storm sewer piping and associated structures to eliminate the recurring issues of ponding and freezing. Refer to the attached exhibits for an aerial and project cost. The estimated project cost is \$30,000

Estimated Budget:

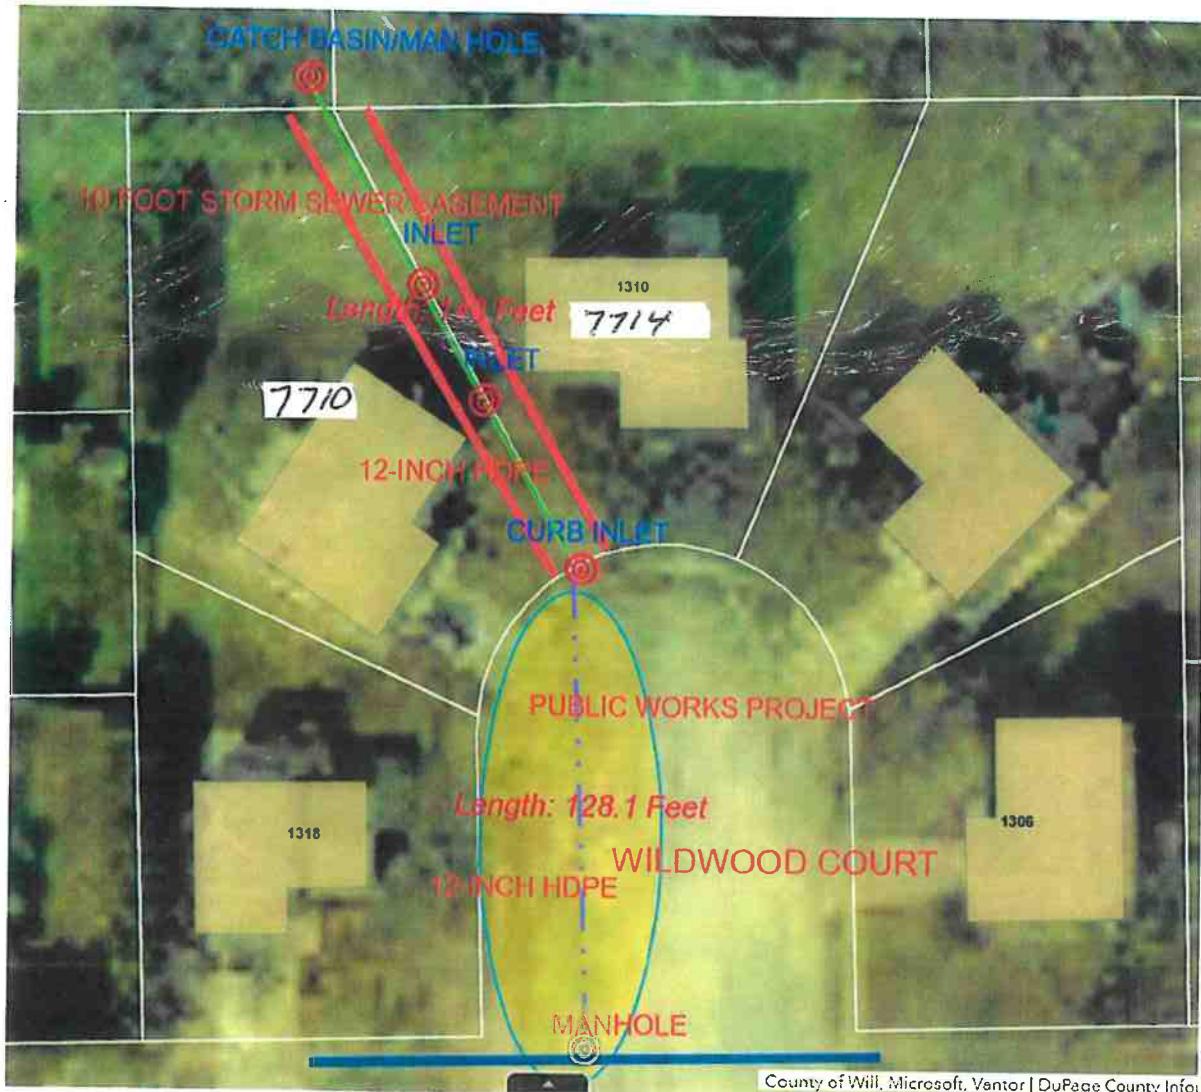

Account #	Account Name	Cost
<u>25-35-4376</u>	<u>Capital Projects-Ditches</u>	<u>\$26,000.00</u>
	<u>Contingency</u>	<u>\$4,000.00</u>
		<u>\$0.00</u>

Project/Program Title: Sidewalk Removal & Replacement

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

The Sidewalk Removal and Replacement Program calls for the removal and replacement of deficient rated sidewalk. The rating system assigns to sidewalks a numerical rating of 1-5, with 5 being defined as an extreme hazard. The Budget allocates for the removal and replacement of all the identified sidewalks with current ratings of 4 and 5. The program also allows for resident call-ins when deficient sidewalks are identified. While this year's sidewalk program has been drastically reduced due to sidewalk grinding program, updated ADA requirements for crosswalks have increased quantities for sidewalk ramps and integral curb barriers. This year's program consist of 15,000 square feet of sidewalk and 7,500 square feet of ADA sidewalk. Included within the proposed quantities is approximately 1,100 square feet for contingencies and call-ins.

Estimated Budget:

Account #	Account Name	Cost
25-35-4380	Sidewalk Removal & Replacement	\$135,000.00
	Sidewalk Program - ADA	\$81,000.00
	Total	\$216,000.00

Project/Program Title:
Concrete Grinding

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Staff is tasked annually with identifying and marking sidewalk squares that need replacement. Typical replacement consists of replacing vertical mismatches starting at approximately $\frac{3}{4}$ of an inch. During the course of the past 20 years, the City has replaced numerous slabs and we have identified that in many cases we are replacing slabs that were removed and replaced 5-10 years prior. The cause of premature replacement is due to the tree roots. Due to the heavy clay content the roots thrive for the closest source of water and typically the storm water flows under the sidewalk due to stone base. As roots seek the water they continue to grow thus lifting sidewalk slabs resulting in mismatches and further creating a trip and fall hazard. Please note the concrete grinding could only be utilized with vertical mismatches. The FY24/25 Budget included funds to grind sidewalks that proved very successful. The grinding was completed for approximately half of the town. The proposed program for this year will complete the remainder of the town. Future grinding will also be drastically reduced and further annual reviews will be reviewed for ongoing grinding maintenance. The targeted area for the program will be from 67th St/Plainfield Rd to the and from Clarendon Hills Rd to Cass Ave.

Estimated Budget:

Account #	Account Name	Cost
25-35-4380	Concrete Grinding	\$83,920.00
	Total	\$83,920.00

Project/Program Title: Curb & Gutter Removal & Replacement

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

This program calls out for the annual removal and replacement of deficient curbs and gutters in conjunction with the road program. Prior to the resurfacing of a road the curb and gutter is evaluated. The evaluation includes deteriorated curb as well as pitch for storm water conveyance. This year's curb and gutter program would consist of removal and replacement of approximately 21,000 lineal feet of curb and gutter. Include within the proposed estimate is approximately 1,200 lineal feet for contingencies and call-ins. Included in the program are aprons in the event that the curb and gutter does not meet the apron in respect to grades or optimal flow.

Estimated Budget:

Account #	Account Name	Cost
25-35-4383	Curb & Gutter – city wide	\$798,600.00
25-35-4383	Aprons, sidewalk & driveway PW related	\$24,875.00

MOTION NO. _____

AGENDA MEMO
City Council
February 2, 2026

ISSUE STATEMENT

Preliminary approval of a motion for the 2026 Sidewalk, Apron, Curb and Gutter Removal and Replacement Program Contract with Suburban Concrete, Inc. in an amount not to exceed \$1,230,975.00 and to waive the residential \$75.00 permit fee application for concrete work. See Exhibit A.

BACKGROUND/HISTORY

The Sidewalk and Curb and Gutter Removal and Replacement Program calls for the removal and replacement of deficient rated sidewalk and curb and gutter. The rating system assigns to sidewalks a numerical rating of 1-5, with 5 being defined as an extreme hazard. The FY26-27 Budget will be allocating for the removal and replacement of all the identified sidewalks with current ratings of 4 and 5, deficient curb and gutter as it relates to the proposed road resurfacing project and quantities for the repair of concrete following main break restoration and street department repairs. The program also allows for resident call-ins when deficient sidewalks and curb and gutter are identified. See attached Program Quantities labeled as Attachment A.

The contract also offers residents, at a pass through cost, the opportunity to remove and replace their deficient concrete driveways, aprons, and the curb and gutter fronting their apron. This will allow the City to remove and replace deficient sidewalk slabs fronting a deficient apron and would allow a resident to participate in the concrete replacement program to correct the apron deficiency. Staff is further requesting that the \$75.00 permit fee application be waived to residents that participate in the concrete program with the proposed vendor since the staff will be on site and inspecting the work.

The bid tabulation for the bid opening held on December 9, 2025 are attached and labeled as Attachment B. Staff received five (5) bids with the lowest bidder being Suburban Concrete, Inc.

COMMITTEE RECOMMENDATION

Pending final funding for the program, the Committee recommends approval of the contract from Suburban Concrete, Inc., in an amount not to exceed \$1,230,975.00 for the 2026 Sidewalk, Apron, Curb and Gutter Removal and Replacement Program and to waive the residential \$75.00 permit fee application for concrete work. Upon budget approval, Staff will issue a notice to proceed.

ALTERNATE CONSIDERATION

As directed by the City Council.

DECISION MODE

This item will be placed on the February 2, 2026 City Council agenda under New Business for formal consideration and subject to the FY26-27 Budget approval.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY,

Project/Program Title: Salt Shed Main Roof

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Recently the walls of the salt shed located at the PW facility have been identified to have a structural deficiency that relates to the walls bowing out due to the momentum of the equipment during loading and unloading of salt. The structure was built in 2010 and holds 3000 tons of salt. Staff has been in contact with CBBEL and Dukane Precast Engineers to determine the integrity of the structure. The building also has vertical and horizontal cracks with salt. As of 01-21-25 there is no clear consensus of whether the building needs further structural modifications for long term use. Staff is requesting a budget allocation in an amount of \$150,000 to determine the structural analysis. The City engineer and staff are looking for seismic monitoring equipment to determine the rate of the walls expanding and/or contracting. Due to the corrosive environment of the salt the cracks are further being reviewed whether they should be sealed with a caulking. On a worst case scenario the cost to repair could be at \$500k and the cost to rebuild has been estimated at 900k. Attached is additional correspondence.

Estimated Budget:

Account #	Account Name	Cost
25-35-4390	Capital Improvement Salt Shed Roof Repair	\$450,000.00
	Total	\$450,000.00

Dan,

See below regarding salt shed repair options from Garland. They are the company that helped with PW roof/floor/gutters &downspouts/tuck-pointing as well as the company that we have received the proposals for the PD & City Hall roofs. The other option he doesn't list is to build a new one which he says they can for sure do. Didn't know if you wanted to know about that or just stick with these repair options.

Let me know if you have questions or would like to talk further with Shawn. Can always do a phone call or have him come up to City Hall if you want.

Thanks,

Kris Throm

To: Kris Throm <kthrom@darienil.gov>
Subject: Village of Darien Update on Salt Dome

Good Morning Kris,

I wanted to provide an update on the Village of Darien's salt dome and a few options for recovery & restoration of the existing building.

Option 1- We restore the building exterior by injecting epoxy into oversized horizontal cracks, repair with concrete, use polyurethane adhesive on small horizontal and vertical joints with new backerrod, and then apply our Garland architectural wall coating. We have done this on a few troubled salt dome foundations that are 42"-46" in height so we would carry the same process for your vertical tip up walls which has performed well. \$130K-\$150K

Option 2- In"stallation of Metal "Rainscreen" Panel system. First, we would need to conduct a structural engineering test of the existing structure. We would evaluate the entire building from the roof to the walls. Typically, this cost would be invasive and to be budgeted at \$20K-\$30K.

Upon the results of the structural findings and as long as the roof/ walls can withstand the new installed system, we will take the next steps to design the drawings for installation of the wall panels and best solution for the roof. Budget can vary based on needs from the structural report but we would assume \$550K-\$650K for the roof and walls to be completed providing a long term warranty- (Warranty will vary based on our structural report but can be upto 20yrs).

Per our discussion, we would NOT recommend basic touch ups or repair methods of this existing structure where a permeable elastomeric wall coating is not installed to firm up moisture intrusion and solvent loss. It is our opinion that basic repairs will only serve as a short term fix and cause additional issues in the short near future.

Thank you,
Shawn

Prepared For
Kris Throm

December 08, 2025

Solution Options

Client: City Of Darien

Facility: Municipal Center

Wall: Complete Building Envelope

Restore Options

Solution Option:	Restore	Action Year:	2026
Square Footage:	5,400	Expected Life (Years):	20
Budget:	\$450,000.00		

Garlands Building Envelope Wall Restoration (Budget purpose ONLY)

1. Stage & Mobilize equipment and materials.
2. Spot tuck point approx 1400 sq ft. of masonry wall plus replace any broken or damaged brick with new.
3. Remove and replace 18x existing windows with new windows- wood framing to be replaced with metal & new windows TBD - field measurements will need to be taken. All windows to be sealed with Garlands green lock structural adhesive.
4. Remove & Replace 2x oversized store front windows to the North of front entrance.
5. Tear down existing wood external stairwell.
6. Grind lower concrete stairwell
7. Repair any oversized cracks and broken concrete with Garlands Gar-Rock and green lock XL.
8. Install garlands Dura-Walk 2k pedestrian walkway system with aggregate in the stairwell and walls.
9. Install Garlands Tuff Coat masonry wall coating at rate of 2 gal per 100 sq ft. (color or colors TBD by Darien) 2x coats min.
10. Install all new compliant external stairwell with landing 4' on the eastside of the building. New decking & stairway to be coated with Garlands Tuff coat (color TBD).
11. Full clean/ sweep of all construction debris.

Good Morning

I have attached the 2009 rehabilitation specifications for Concord School along with the core samples. I recall this lot being in very poor condition at the time, requiring us to increase patching just to bridge the crumbling base after milling. Given those conditions, I strongly recommend an engineer's review for a possible full reconstruction, including a one-foot undercut to replace the stone throughout and four inches of new asphalt.

Yes the field measurements from previous seal coating is Cass 45,653 and Concord 81,500.

On Wed, Sep 24, 2025 at 4:35 PM Dan Gombac <dgombac@darienil.gov> wrote:

Dave,

Please review the Cass Junior High School parking lot and provide a windshield observation on rating them based on road evaluations. Pls field measure the lots unless there is enough info from GIS for accurate msrmnts. Perhaps Mark may have field msrmnts based on recent sealcoating and we could wait for Mark to confirm. We will need a striping plan that would be prepared by the School District.

Once rated we could estimate the costs for each lot and forward info to Mark for further participation.

Subject: Cass SD63 Parking Lot Replacement

Hi Dan,

We are looking at replacing our parking lot and drives at Cass Junior High School in particular, and I was wondering if the city has gone through the bid process and determined contractors yet for 2026.

If not, I was curious if there was a way to collaborate and allow the district to be an alternate bid to the project. We would take care of our own design and plans, but just wanted to see if you thought it was a possibility.

I can explain more about the concept if you're free to talk, or if someone else I should speak with, just let me know. Thank you.

AGENDA MEMO
City Council
June 2, 2025

ISSUE STATEMENT

A motion accepting the proposal of a 12-month subscription for the Mini-Road Weather Information Systems sensors from Frost Solutions, LLC, in an amount not to exceed \$19,600. See Exhibit A.

BACKGROUND/HISTORY

The Road Weather Information Systems provides vital road temperature during the winter season. The equipment is positioned on light poles throughout the City's 7 snow regions and allows Staff to implement the optimal anti and/or deicing products on the roadways. Pending the conditions warranted through the equipment, savings are realized on deicing products, road salt usage and staffing. The Staff continues to utilize the data provided for winter events to deliver optimal anti-icing and deicing operations. While the winter was relatively mild since its implementation, the information offered valuable data in preparing for the roadway treatment in ongoing or upcoming events. Below are additional bullet points regarding the units:

- Alarms can be set to notify us when certain weather conditions are being met for pavement temp, air temp, humidity, dew point
- Real time data about conditions in our City versus at locations surrounding us like airport, highway weather points or the City of Chicago
- Winter Storm mode pulls real time images every 20 minutes for the duration of impactful winter weather events.
- Real time conditions of the roads

Frost Solutions Mini-RWIS Sensor is the exclusive product and service that is exclusively manufactured and sold by Frost Solutions, LLC. See Attachment A.

The FY 25-26 Budget included funds for the subscription and would be charged against the following account:

Account Number	Account Description	FY 25-26 Budget	Expenditure
01-30-4213	Streets-Dues & Subscriptions Frost Solutions road temp sensors	\$9,950	\$9,800
02-50-4213	Water-Dues & Subscriptions Frost Solutions road temp sensors	\$9,950	\$9,800

COMMITTEE RECOMMENDATION

The Municipal Services Committee recommends accepting the proposal of a 12-month subscription for the Mini-Road Weather Information Systems sensors from Frost Solutions, LLC, in an amount not to exceed \$19,600.

ALTERNATE CONSIDERATION

As directed by the City Council.

DECISION MODE

This item will be placed on the June 2, 2025 City Council agenda for formal consideration.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 2nd day of June 2025.

AYES: 6 – Belczak, Kenny, Leganski, Schauer, Stompanato, Sullivan

NAYS: 0 – NONE

ABSENT: 1 -Gustafson

ORDER FORM
FROST SOLUTIONS, LLC & City of Darien, IL
PROPOSAL DATE: 05/12/2025

All Frost Solutions products are non-invasive and include a self-install hardware unit, access to the web application, service and support, and product replacement (if necessary). Frost Solutions maintains ownership of the hardware unit at all times. Historical data, configurable alerts, and unlimited user accounts are included with subscription.

Frost Solutions Mini-Weather Station					
Hardware Solar + battery-powered low-light camera and sensor unit providing surface temperatures, still shot images (day and night), air temperature, dew point, humidity, and lens defroster.					
Additional Included Application Services: On-demand image requests, Frost Vision AI Image Assessment, atmospheric and surface temperature and condition forecasting, and image retrieval.					

Product	Term	Quantity	Unit Cost	Year 1 Cost	Term Total
Mini-Weather Station Renewal - Annual Lease Subscription - Jul 1, 2025 - Jun 30, 2026	12 Months	7	\$ 2,800.00	\$ 19,600.00	\$ 2,800.00

	Grand Total \$ 19,600.00

Payment Terms	
Date Due	Amount
Jul 31, 2025	\$19,600.00

TERMS & CONDITIONS

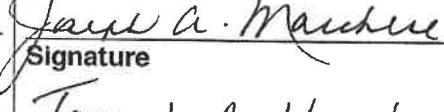

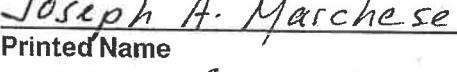

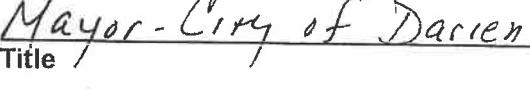

This Order Form, in conjunction with the Master Service Agreement, which is incorporated herein by reference, establishes the commercial relationship between Frost Solutions, LLC and the Customer. The parties acknowledge that they have read, understand, and agree to the terms and conditions of this Order Form and the related Master Service Agreement that is either attached to this Order Form or was included with a prior Order Form. In the event of a discrepancy between the terms of this Order Form and the Master Service Agreement, the Master Service Agreement shall control.

PAYMENTS, REFUNDS, & CANCELLATIONS

Customer shall pay all fees specified in this Order Form without offset or deduction. Customer shall make all payments hereunder in U.S. Dollars on or before the due date set forth in this Order Form. Except as otherwise specified herein, (a) fees are based on services purchased and not actual usage or services provided; (b) payment obligations are non-cancelable; (c) fees paid are non-refundable; and (d) the services purchased cannot be decreased during the relevant Term. Customer may terminate this Order Form at any time, however such termination shall not result in any refund of payments previously made or cancellation of any future payment(s) due as set forth in this Order Form to Frost Solutions, LLC during the current Term, but only results in the termination of automatic renewals and any future payments caused by such automatic renewals no longer being due to Frost Solutions, LLC.

Any NEW program/activity/equipment costing in excess of \$5,000

BUDGET REQUEST FORM

FYE 26

Department: Street and Water Department Fund: 01 & 02

Project/Program Title: Vaisala in road sensors

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

This would be for a 3 year trial of 5 in pavement temperature sensors. We would core a hole in a road and insert the pavement sensor. The sensors would provide three temperature readings, surface, and two subsurface temperatures. Over the past several years we have seen the importance of surface temperature in relation to winter operations. These sensors would not only tell us what is happening surface level but also subsurface which is important as it relates to how winter chemicals will work or how precipitation will affect our roadways.

Estimated Budget:

Account #	Account Name	Cost
01-30-4213	Street Department – Capital Purchases Equipment	\$5,000.00
02-50-4213	Water Department – Capital Purchases Equipment	\$5,000.00
	Total	\$10,000.00

If you have any questions, I'm here to help. You can reach me by email at eric.faulkner@vaisala.com or by phone/text at +1 (720) 241 9073

Assumptions and Stipulations

1. Quote is valid for 30 days from issuance
2. Installation materials including Fabick epoxy for GroundCast and a telescopic pole for TempCast are included
3. Subject to Vaisala General Conditions of Subscription Services ([link](#)) and Service description for Cast sensors with Wx Horizon Pro (below): <https://www.vaisala.com/en/vaisala-policies>
4. Wx Horizon & Cast sensor annual price is based on a 3-year term subscription commitment. Shorter terms may be considered at a higher price and can be quoted upon request
5. Excludes installation
6. Ground Cast Sensors require a minimum mounting depth of eighteen inches (18")
7. Customer is responsible for utility locates at desired Ground Cast installation locations
8. Cellular NB-IOT coverage should be available wherever Verizon has service but must be confirmed at each location prior to installation
9. Sensors with updated firmware will be available in June of 2024
10. Invoice frequency can be tailored to quarterly, semi-annual, or annual intervals with the default being annual billing

With signature below, City of Darien, IL (Customer) agrees to a 3-year contract commitment for a total of \$24,000 with an annual billing frequency.

Service description

Vaisala Cast™ Sensors with Wx Horizon Pro

Vaisala Cast™ Sensors complement the Vaisala Wx Horizon Pro weather hazard information system with accurate observations from critical locations. With a single Wx Horizon Pro subscription with predictable costs and continuous warranty, users can access both in-situ observations and road weather point forecasts from sensor locations. The Cast Sensors wirelessly collect environmental data from key locations and provide this for Wx Horizon to generate actionable information to help plan road winter maintenance operations.

1. Features

Vaisala Wx Horizon Pro weather hazard information system for road condition situational awareness

- Leverages Vaisala industry-leading sensors and world-class forecasting capabilities
- Provides road weather condition forecasts using Vaisala proprietary road weather model
- Provides access to data through a web user interface optimized for providing support for winter maintenance decisions, and through a REST API

Vaisala Cast™ Sensors

- Utilize Vaisala leading technology to measure key environmental parameters
- Wirelessly connect to Vaisala cloud
- Are fully autonomous with built-in power and communication
- Have minimum 3-year battery lifetime with no maintenance needs

Vaisala Cast™ Connect mobile application for sensor activation

- Is available free of charge from Google Play Store and vaisala.com
- Intuitively guides the user through the sensor activation process
- Ensures adequate cellular field strength at the installation location

2. Communication

- Cast Sensors are delivered together with a SIM-card for 24/7 connectivity
- Connectivity is subject to activating the sensors using the Cast Connect mobile application to ensure adequate cellular field strength at installation location
- Cellular communication costs are included in the subscription fee
- Data availability is subject to the availability of cellular service

Note: choosing a location with good cellular field strength will increase the battery lifetime of the sensors and make replacement need less frequent. The Cast Connect mobile application will assist by providing a visual indication of field strength before the activation.

3. Data license, access, and security

Vaisala grants the customer a non-exclusive license to use the sensor and the forecast data during the contract term for internal business purposes. A more complete description of the legal terms and conditions governing the subscription service is in the General Conditions of Subscription Services of Vaisala Group:

<https://www.vaisala.com/sites/default/files/documents/DOC250754-A-General-Conditions-of-Subscription-Services.pdf>.

A 3-year history dataset is stored at Vaisala and is available for the customer through the user interface and API.

The API is a cloud-hosted REST API deployed to multiple service regions for performance and resilience.

Data security is ensured in all parts of the data chain:

- Public key infrastructure (PKI) is used for managing device certificates
- TLS/DTLS secure protocols are used for data transmission
- Security audited SW components are used in cloud system software

4. Sensor shipping, installation, and replacement

- Upon reception and confirmation of a subscription order, Vaisala will ship the Cast Sensor hardware to the customer. The sensor will remain the property of Vaisala.
- The customer is responsible for installing the sensor according to the instructions and using the tools provided by Vaisala. Vaisala has no responsibility for incorrectly installed sensors and the effects thereof. The customer is responsible for ensuring that all laws and local regulations related to safety, environmental compliance, road closures, and site installation procedures are followed.
- Vaisala will monitor the sensors 24/7/365 and will proceed to ship replacement sensors in case of data loss due to non-functional sensor hardware, for example loss of battery power.
- Before shipping a replacement unit, Vaisala will contact the customer for a confirmation.
- Replacements included in the subscription fee only apply to sensors with no physical damage beyond normal wear and tear. In the event there is physical damage, a fee may apply for the sensor replacement.
- De-installation of old sensors and installation of replacement sensors are not included in the subscription fee. Please contact Vaisala sales to discuss and get a quote for the installation work.
- The customer is responsible for the removal of sensors after their lifetime and recycling them according to local regulations and instructions provided by Vaisala. Failing to do this, the customer accepts full liability for any environmental or hazard-related issues. The customer will also have an option to ship the sensors at their own cost to Vaisala for recycling.

5. Invoicing

The invoicing period for the Wx Horizon Pro subscriptions is 12 months, unless otherwise specified in purchase documentation. Invoicing period starts 30 days after the shipment of the Vaisala Cast Sensors associated with the subscription.

6. Technical support

Vaisala support team is available 365 days a year to receive service requests through

MyVaisala support channel. See the local contact details at www.vaisala.com/en/support.

The official language of the technical support is English.

7. Service availability

Vaisala strives to keep the service available 24/7, excluding necessary maintenance breaks or downtime caused by interruptions in services beyond Vaisala control, such as cloud or cellular service provider. For a more complete description, refer to the General Conditions of Subscription Services of Vaisala Group.

8. Maintenance and service breaks

We generally provide scheduled maintenance and updates of the Wx Horizon service without breaks to service availability or data measurement collected from Vaisala products. If maintenance or updates cannot be carried out without a break to the service availability, we will notify customer of such breaks through email and/or the Wx Horizon service itself. In case there are unexpected service breaks, we shall within normal office hours attempt to recover the service as soon as possible.

9. Summary of responsibilities

Vaisala responsibility	Customer's responsibility
<ul style="list-style-type: none">• Delivers sensor units upon start of the subscription and in case of data loss due to faulty sensor hardware• Provides a SIM card and cellular data communication• Provides an account and credentials for cloud hosted Wx Horizon software, with the Wx Horizon Pro feature set• Monitors sensors and proactively reacts to data interruptions• Provides observation and point forecast data for sensor locations through an API and on the Wx Horizon cloud user interface	<ul style="list-style-type: none">• Adopts and pays periodic subscription fees, in accordance with the applicable terms and conditions• Installs sensors based on instructions and tools provided by Vaisala, observing laws and local regulations• Removes and recycles sensors according to local regulations

Any NEW program/activity/equipment costing in excess of \$5,000

BUDGET REQUEST FORM

FYE 27

Department: Street & Water Fund: 01 & 02

Project/Program Title: GPS Route Camera unit 7 trucks

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: Original Cost:
This new program would give us real time access to on board material usage, routes and GPS Data. The information is useful to determine if staff is following instructions from management in regards to material usage during winter storm events. It can be utilized to determine if systems actually fail or if staff is turning them off for whatever reason. We can also see exactly how a vehicle is traveling around town or through a plow section. We can then proactively coach drivers based on route information. Can also load in route for driver to follow for whatever reason we determine. The GPS and route data can also be utilized to prove or dispel resident complaints about speeding or lack of service calls. This would be an annual subscription service. First year would include some setup cost.

Estimated Budget:

BUDGET REQUEST FORM

FYE 27

Department: Water

Fund: 02-50-4219

Project/Program Title: Trench Box

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

We are requesting funds to purchase a new Aluminum Trench box with telescoping adjustable spreaders. The item is a safety item that allows our departmental staff to work safely in excavated holes. The current trench box that the City of Darien has is very flimsy and twists both vertically and horizontally when trying to place it in our excavated holes due to how the box is constructed and is in excess of 10 years old. A sturdier box would allow staff to spend less time manipulating the box to get it in the hole and make the repairs quicker and safer effectively providing better service to our customers. The box is lightweight and can be built four sided for maximum protection at all directions.

Estimated Budget:

Account #	Account Name	Cost

Department: Water Dept

Fund: 02-50-4223

Project/Program Title: Seal coating – parking lot repl plant 3

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Crack sealing is a routine maintenance treatment that will significantly delay deterioration. The sealing material is applied into the cracks before they become too large and before the freeze-thaw cycles have an opportunity to shift the pavement and develop larger cracks (alligatoring). Flexible rubberized asphalt sealants bond to crack walls and move with the pavement, preventing water from entering the road base. The life of the parking lot is extended and maintenance costs greatly reduced over time. The City is crack sealing the parking city hall parking lot and striping the parking spots, letters and symbols.

Estimated Budget:

Department: Municipal Services Fund: 01-50-4223

Project/Program Title: Water Plant Heaters

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Staff proposes purchasing infrared heaters to improve air temperature during cold months. These heaters would provide direct heating to equipment and floors, helping to remove moisture and preserve equipment more effectively. The improved temperature control would maintain warmth even after garage doors are opened, quickly reheating the area below the heaters. The proposed system includes four 20-foot-long heating elements designed to direct warm air onto workspaces and equipment. This setup could reduce corrosion on equipment and materials, ultimately extending their lifespan.

Department: Streets and Water Fund: 01 & 02 4229

Project/Program Title: Vactor Maintenance Agreement

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: 2024 Original Cost: \$548,000.00

The proposed program would be for entering into a service agreement with Standard Equipment for the newly purchased Vactor Truck. City Staff would take the truck into Standard several times a year depending on service interval requirements in order to have major system components reviewed and serviced. Due to the highly technical and mechanical nature of the truck staff recommends taking the truck in for expertise service. We feel that this will help the City stay ahead of major unknown service requirements. This is protecting the City's investment in a wonderful tool that the Department utilizes for sewer cleaning, sewer line jetting & hydro-excavations.

Estimated Budget:

Account #	Account Name	Cost
01-30-4229	Street Department – Maintenance Vehicles	\$7,500.00
02-50-4229	Water Department – Maintenance Vehicles	\$7,500.00

AGENDA MEMO

City Council

May 5, 2025

ISSUE STATEMENT

A motion to accept a proposal for a Preventative Maintenance Agreement, Annual Evaluation and Operator Training for the Vactor Sewer Cleaner from Standard Equipment in an amount not to exceed \$8,500.

BACKGROUND/HISTORY

The service agreement is for the recently purchased Vactor Sewer Cleaner and is provided by Standard Equipment. The company is the authorized manufacturer's representative for the equipment. The service agreement relates to reviewing the equipment for deficiencies and warranties as it relates to the truck chassis, hydraulics and electronic components, see attached proposal labeled as **Exhibit A**. Any items requiring repairs will be replaced or repaired upon the city Mechanic's approval. The agreement also includes additional multi-day training for all the employees at scheduled intervals. The Mechanic will be attending and engaging with additional hands on training for mechanics at a future independent multi-day event.

Standard Equipment is the sole authorized agent for the geographic region and the agreement is for one year.

The proposed expenditure would be expended from the following line accounts:

ACCOUNT NUMBER	ACCOUNT DESCRIPTION	FY 25-26 BUDGET	PROPOSED EXPENDITURE	PROPOSED BALANCE
01-30-4229	Maintenance Vehicles Vactor Service Agreement	\$ 7,500	\$ 4,250	\$ 3,250
02-50-4229	Maintenance Vehicles Vactor Service Agreement	\$ 7,500	\$ 4,250	\$ 3,250

COMMITTEE RECOMMENDATION

The Municipal Service Committee recommends approval of a motion to accept a proposal for a Preventative Maintenance Agreement, Annual Evaluation and Operator Training for the Vactor Sewer Cleaner from Standard Equipment in an amount not to exceed \$8,500.

ALTERNATE DECISION

As recommended by the City Council.

DECISION MODE

This item will be on the May 5, 2025 City Council agenda for formal consideration.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 5th day of May 2025.

Department: Water

Fund: 02-50-4231

Project/Program Title: Water Tower Tank Washing

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

This is a proposal for power washing all 3 of the City of Darien's Elevated Water Towers. The company uses a frictionless method of washing meaning there will be no direct contact of equipment with the tank itself. They also utilize soft washing technique including a bleach soak and soap rinse and then apply a mildew inhibitor to prolong the return of mildew growth on the tanks. Additionally for extra cost they will assess and repair any small paint damage found after the tank is clean and dry and will take care of any rust streaking that is found to be present as well.

Estimated Budget:

Account #	Account Name	Cost

PROPOSAL # 2985

DATE 11/17/2025

EXPIRATION DATE 12/31/2026

SERVICES

National Wash Authority, LLC (dba Midwest Mobile Washers) along with twenty-nine years of water storage tank cleaning experience, proposes the following for City of Darien. National Wash Authority/Midwest Mobile Washers is a Minority-Female owned business.

ACCOUNT

National Wash Authority has successfully and safely cleaned over 3,400 plus water storage tanks in several States without any incidents and never has had any time loss of work, due to an injury! We are a safe and compliant workplace of 31 years.

LOCATION OF JOB SITE: SITES LISTED BELOW SERVICES TO BE RENDERED ON JOB SITE:

We will render the proper and standard cleaning procedures to the industry (AWWA-SSPC-NACE) to clean and remove mildew/algae growth on the exterior sides of a water storage tank(s).

TANK DESCRIPTION: TANKS LISTED BELOW

DESCRIPTION OF SERVICES:

Pre-soak system of a soapy bleach applied at low psi application or thru pressure washing equipment utilizing chemical injectors to apply the product. Once the root of the mildew/algae has been killed we will then use a "Soft Wash rinse application" to flush off debris. (With lower psi) Its very important that when high psi is used it can cause damage and/or leave a wand pattern shadow look on the tanks surface, once cleaned. This is old school practice and not the best method on older paint systems.

We use a 100% frictionless procedure to access your tank. No cable hanging/No wheel baskets/No hanging apparatus will be used to clean your tanks surface. Our company will utilize an aerial manlift to access the tanks surface working directly next to the tank with no attachments 100% frictionless cleaning applications. Proper pressure wash nozzles, equipment and techniques are required to wash a water tower's surface. Water tank coatings may have thin paint, cracked paint, bubbled paint, chipped paint, oxidized paint and peeling paint which all play a vital role of how a tanks surface needs to be cleaned. With our pre-soak system treatment and flush type system (large nozzle sizes) we call "Soft Wash Method" of using less than 800 psi to clean a tank. No high pressure cleaning or blasting is required to clean your tanks surface.

Once your tank is cleaned, we apply an anti-mildew inhibitor to slow down the return of mildew staining. This is just an aid it will not prevent mildew from not growing. Condensation of a tank, water temperature in the tank, condition of paint on a tank, environment of setting of a tank, water usage of the tank, atmosphere dust, blowing debris onto a tank and

Seasonal changes by Mother Nature all determine on the re-growth of mildew on a tanks coating system.

We pride ourselves over any Competition by being a Safety & Compliant Company.

- Illinois Prevailing wages scales are met as required by past and new Illinois Laws. Due to new House Bills being passed, we are required to pay prevailing wage so the playing field is level for union and nonunion contractors. Therefore, Prevailing wages are added to our Proposals.
- Employee's are Certified on lift equipment. (Have operator cards)
- Background checks done on ALL employee's.
- We are an Accident Free Work Place!
- Thirty-one years of NO lost time of work DUE TO AN INJURY!
- 100% TOTALLY FRICTIONLESS CLEANING TREATMENT of a tanks surface.

All cleaning agents used are biodegradable and are environmentally friendly.

All safety equipment will be used by OSHA requirements (Miller safety harness' or equivalent).

All equipment, safety devices, crane and aerial machinery are included in this bld.

Enclosed is a copy of our General Liability Insurance coverage. Our employees' are fully covered under our Workman's Compensation insurance.

ANY AND ALL OTHER INSURANCE REQUIREMENTS ABOVE AND BEYOND OUR CURRENT INSURANCE COVERAGES, WILL BE AN ADDITIONAL CHARGE ADDED TO THE CURRENT PROPOSAL PRICE IF REQUIRED BY YOUR MUNICIPALITY.

This proposal terminates if not accepted by December 31, 2026.

We are the Original Founders of adding an anti-mildew inhibitors to the tanks surface. Most recent, after two years of research we are the Proud Founders of the "Soft Wash Cleaning Treatment" to water tanks as well! Our Company is the only one whom renders a Soft Wash Cleaning Treatment in our Industry!

D/2 Biological Solution

Discover the D/2 difference!

D/2 Biological Solution is a biodegradable, easy to use liquid that removes stains from mold, algae, mildew, lichens and air pollutants. It is effective on marble, granite, limestone, brownstone, travertine, masonry, terra cotta, concrete, stucco, wood, and other architectural surfaces including monuments, sculpture and headstones. A contact time of only 10 to 15 minutes followed by scrubbing with a soft nylon or natural bristle brush will loosen most biological and air pollutant staining.

D/2 Biological Solution is effective for removing harmful biological and air pollutant staining from many building materials including masonry, marble, granite, limestone, brownstone, travertine, terra cotta, concrete, stucco, wood, canvas and vinyl & aluminum siding.

Features and Benefits

- **Fast acting:** 10 to 15 minutes contact time for great results.
- **Biodegradable**
- **Contains no acids, salts, or chlorine**
- **pH neutral**
- **Will not etch metals or glass**
- **Safer to use around plantings**
- **Is not a hazardous material and requires no special handling or protection**
- **Use full strength, no in-field mixing required**
- **Shelf life of 5 years**

Application Procedures

Always do a spot test sample before proceeding with project. D/2 works best when air and surface temperatures are 45°F or above. Use D/2 undiluted for best results. In the event of

excessive plant exposure, rinse all plants and water in **all** planted ground areas.

Immediate Result Method

1. Apply D/2 Biological Solution with a brush, roller, hand pump sprayer (garden style pump sprayer) or low pressure power sprayer.
2. Allow undiluted D/2 to remain on the surface 10-15 minutes.
3. Apply additional D/2 as necessary to maintain a wet surface.
4. Scrub with soft nylon or natural bristle brush, **DO NOT USE METAL BRUSH.**
5. Lightly mist with water and continue scrubbing.
6. Rinse thoroughly with clean, potable water.

No Scrub/No Rinse Method

1. Apply D/2 Biological Solution with a brush or pump sprayer to a dry surface. Do not pre-wet the surface.
2. Allow to dry. Repeat if there are heavy biological stains.

D/2 works with the elements and results occur within one week to one month depending on severity of growth and weather conditions. The surface will become cleaner over time as the subsurface biological stains release.

Safety Information

D/2 Biological Solution is non-mutagenic, and contains no carcinogenic compounds as defined by NTP, IARC, or OSHA. It is considered essentially non-toxic by swallowing, as it has an oral LD50 of 2.0 g/kg of body weight. No special ventilation is required during use.

Packaging and Coverage

D/2 Biological Solution is available in 1 gallon and 5 gallon containers, and 55 gallon drums. The area that can be treated with one gallon of D/2 will vary considerably as a function of the nature and extent of biological deposits, as well as the physical characteristics of the surface. Typical coverage to remove medium deposits will vary from 250 to 350 square feet per gallon.

Technical Data

Physical Form Transparent, low viscosity liquid

Color Almost colorless

pH 9.5

Specific Gravity 1.01g/cc

Solubility in Water Complete

Vapor Pressure 25 mm Hg @ 20°C

BioBARRIER
TECHNICAL DATA SHEET
PRODUCT NAME: BioBARRIER

PRODUCT DESCRIPTION: BioBARRIER is a new approach to microbial control. Upon initial contact with the surface, and after application and allowing surface to dry, BioBarrier inhibits organism reproduction and growth.

BioBarrier does not KILL Mold, bacteria and fungal (Proper prewash and washing procedures kills and removes the mold, bacteria and fungus.) BioBarrier DISABLES mold, bacteria and fungus by preventing it from growing and reproducing. Therefore it is labeled a deodorizer, sanitizer, protectant.

How does BioBarrier work?

BioBarrier reduces the ability for microbes (bacteria, mold, fungus) to reproduce. It does so by interfering with the formation of a biofilm. Bacteria replicate every 20 minutes, in perfect conditions. 1 cell can become 16,777,216 in 8 hours!

Microbes reproduce by division. In order to reproduce, the microbes need to affix to a surface and form a biofilm. Once attached, they can reproduce by budding/vegetative growth. BioBarrier prevents attachment to the surface; thus the microbe can not exert enough "force" to permit budding. With reproduction eliminated, the size of the colony increases as does its vulnerability to chemical controls, magnifying their efficiency and completing the sanitization process.

Applications

* Garages	* Concrete areas	* Vinyl siding
* Gutters	* Roof shingles	* Decks
* Outdoor furniture	* Cabins	* Painted Surfaces
* Garbage cans, dumpsters and trucks		
* Transportation vehicles - buses, trains, airplanes, BOATS, etc.		
* Anywhere moisture might stay and mold, bacteria or fungi might prosper.		

The Benefits of BioBarrier

- * Environmentally Friendly (Biodegradable)
- * Contains no heavy metals, no arsenic, arsenite, cyanide, mercury or other toxic chemicals.
- * Battles a large assortment of bacteria, fungi and mold, all of which CAN NOT build resistance to BioBarrier.

705 North Jackson Street
Montrose, IL 61240
(815) 772-4423 or 1-800-304-7517

Water Tower Washing Procedures Procedures
Not all Bidders use this Process

Our procedures are completed by 100% frictionless.

- * No hanging with ropes or cables. They will scratch up the tank paint. Don't be sold this they won't.
- * No wheels rolling and leaving marks on the tank paint. If so, make Contractor sign to clean up marks.
- * Using a sponge brush as a scrub, to kill the moldy stains. We do spray as a first application process.
- * No liability of climbing up and down towers ladder several times.
- * No hooking up to tower's power supply to run/power up equipment.
- * We only ask for water supply using a RPZ backflow preventer or hydant's.
- * We work in a scrubbing to visually see any bad paint chips or cracks before spray nozzle make issues worse to arise. We are working next to the tank within touching distance.
- * Using the word "chlorinated water" will not effectively clean to kill mildew spores. We all drink chlorinated water on a daily basis. Please don't be misled by this term.
- * We will not scratch, hang, rub, scratch, repel, climb and/or use any power source to complete our cleaning services. We are a 100% frictionless cleaning procedure and provide safe practice for our employees'.
- * Hanging types of service will always be cheap because there is no machine expense. Hanging types of service cause the most damage to the tank paint also.

All information on this proposal/quotation is not to be copied, reproduced or used as specification for any other RFP's. Procedures, methods and products are not to be copied, shown or reprinted to any third party.

Any **EXISTING** program/activity/equipment costing in excess of \$5,000

BUDGET REQUEST FORM

FYE27

Department: Water

Fund: 02-50-4231

Project/Program Title: Gutermann Zonescan Leak Loggers

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Staff is proposing to purchase Leak Loggers to cover the entire Water System. Previously we looked at purchasing a few sets of leak loggers to move around town. Based on the trial set of 50+ loggers that we purchased we believe that we will see very positive results. By covering the entire system we will not have to move loggers around in order to monitor our system. Once the system is covered we will not need the annual leak detection survey by an outside company anymore either and we will have daily leak detection all year long instead of one day out of the year when the leak detection company comes out. We are choosing to break the program into a 3 year cycle. It is anticipated that approximately 600 loggers will be needed to cover the City's 104 mile Water System. Typical spacing is approximately 850 foot increments and the loggers will be placed on Main Line Valves and Fire Hydrant Auxiliary Valves. Spacing does vary based on pipe size and type and needs to be adjusted accordingly. These upgraded loggers are cellular based with SIM cards built in. After the initial 5 year contract there will be a recurring annual cost per logger and for wireless access. We have been told that the cost is \$29/logger annually. This cost will be paid by saving on the annual leak detection service. The system comes with a wireless user interface that would house all pertinent information. All loggers would be able to be seen on a map overlay. Staff will not need to drive past the loggers to download information via Bluetooth as was the case with other leak loggers we looked into. The loggers have field replaceable Lithium Ion batteries with an anticipated life cycle of 8 years. Other loggers have to be sent out or completely replaced at the end of the battery life cycle estimated at 5 years. The Gutermann loggers will listen to the pipes every night for a 2 hour span during anticipated low usage times, typically 2 am to 4 am. They will determine noises that are not normal and run different leak correlations between the various sensors covering the area to pinpoint the leak. Any noise will be given a leak confidence score so that staff can address accordingly. Identifying and repairing leaks shortly after they start will allow the City to continue to reduce the system wide water loss and thereby non-revenue water. Based on the 2023 Leak Survey 23 leaks were identified estimated at 53 gpm lost. This translates into over 76,000 gallons per day or almost 28 Million Gallons per year lost. The proposed product is an updated version of the system that the Villages of Elmhurst and Oak Lawn have installed. Staff has researched several different products and feels that the Gutermann product is the best on the market and will provide the City with the best long term results.

Estimated Budget:

Account #	Account Name	Cost
02-50-4231	Water dept – water loggers	\$13,500.00
	Total	\$13,500.00

ZONELOG

Compact IoT Pressure & Flow Data Logger
For integrated, efficient DMA & PMA monitoring

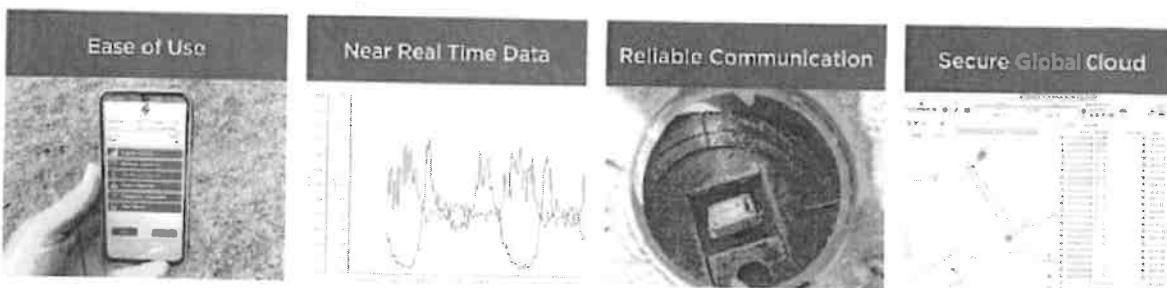

This efficient 24/7 monitoring solution helps reduce Non-Revenue Water quickly.

ZONELOG is a compact and simple to use datalogger for near real-time pressure and flow measurements sending its data via the low power wide area networks, NB-IoT or LTE-Cat M.

ZONELOG

Compact IoT Pressure & Flow Data Logger
For integrated, efficient DMA & PMA monitoring

Unique features to optimize installation & maintenance

Installing a pressure and flow data logger has never been easier. The Android NFC app ZONELOG Install will guide you through the process of activating the ZONELOG data logger, registering it to the NB-IoT or CAT-M1 network, assigning its exact location and programming measurements and upload intervals via NFC or via the cloud.

ZONELOGs are typically deployed at strategic locations depending on geography, DMAs, PMAs or around PRVs. With a single unit and one of the smallest dimensions in the industry, the ZONELOG data logger fits into most chambers.

The potential maintenance of a ZONELOG is optimized by:

- Field replaceable battery
- Field accessible SIM card
- Remote battery status
- Remote temperature view
- "Zero" air-pressure feature
- Firmware upgrade over the air

Precise readings 24/7

The recorded measurements of every ZONELOG are stored in the data logger's memory and uploaded via NB-IoT or CAT-M1 e.g. hourly to the ZONELOG cloud. This data can be used to auto-generate alerts 24/7 in near real time and provide advanced flow & pressure analytic alerts (e.g. high minimum night flow = leakage) or high pressure (e.g. PRV malfunction) events. With the integration of ZONELOG into GUTERMANN's leak detection software a complete set of new features will be available.

Using a Keller pressure sensor assures highest precision & reliability over time. Combined with automatic daily time synchronization at -100ms accuracy helps delivering unprecedented results for DMA & PMA monitoring.

Reliable NB-IoT / CAT-M1 data upload straight to the cloud

ZONELOG is using a dual modem for low power NB-IoT and CAT-M1 networks supported by most GSM providers. They are well suited for battery powered devices installed in underground chambers. The use of latest chipsets, high gain antennas and good collaboration with network providers are key ingredients for reliable communication to ZONELOG cloud.

ZONELOG using NB-IoT & CAT-M1 communication significantly outperforms other devices.

- 5 years battery life with hourly data transmission
- Deep underground coverage
- Firmware and configuration upgrades over NB-IoT or LTE-M networks
- Lower communication costs
- User or factory mounted SIM card with multi network roaming option
- Outstanding typical daily read rates of >95%

Combining acoustic leak detection with pressure & flow logging

The GUTERMANN CLOUD is the industry leading software for leak analysis & NRW reduction. It has a Google Maps™ and Street View™ based user interface which allows to manage the entire leak detection infrastructure, import GIS pipe data, analyze, and process leak alarms. Parameters such as recording times, alarm thresholds and many more can be changed anytime.

An event management tool facilitates:

- Efficient workflow and the classification of leak alarms
- Track events
- User friendly direct linking from ZONELOG CLOUD to GUTERMANN CLOUD
- Generation and distribution of detailed event reports

Technical Specifications

Flow Meter Input:	Dual channel pulse, 1 x bi-directional + 1 x forward, Flying leads with optional MI-Spec connector
Versions:	2FIP, 2F2P, 2F (F = Pressure; P = Flow)
P sensor:	0-20 Bar (50 Bar overload), resolution <1 mbar
Ingress protection:	IP68
Dimensions (2FIP):	L: 140mm, S: 5" W: 90mm, 3.5" H: 50mm, 1.8"
Weight (2FIP):	0.4 kg (0.88 lbs)
Temperature range:	-20°C to +70°C (-4°F to +158°F)
Communication:	Cellular (NB-IoT & CAT-M1), various bands
Configuration interface:	NFC
SIM Card:	Nano SIM Exchangeable
Battery:	3.6V, 18Ah; Lithium battery
Battery life:	>5 years, depending on config, NB-IoT / CAT-M1 coverage and ambient temperature
Antenna:	High performance extended antenna with magnetic base or compact flex antenna

Cloud Software Features

- ✓ Browser-based cloud software with data hosted on secure servers of GUTERMANN's professional hosting partners
- ✓ Automatic multiple uploads per day
- ✓ Auto generation of alarms via cloud event settings
- ✓ Display of all historical measurement and change log data
- ✓ Geospatial mapping of data logger locations
- ✓ Maintenance mode for real-time check-up of each logger
- ✓ Event ticket management with work-flow support
- ✓ Remote access possible from anywhere in the world
- ✓ On demand assist by GUTERMANN specialists
- ✓ Automatic upgrades of cloud software, Android app, device firmware

Department: Municipal Services

Fund: 02-50-4810

Project/Program Title: Watermain Infrastructure

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

The proposed new water main is anticipated to be ran in the parkway, with the anticipation that the only work in the roadways would be to run new water main for all of the road crossings. We have asked Christopher Burke to include replacing all of the road crossings. We are looking to install new 12" Ductile Iron water main, 12" resilient wedge gate valves, new East Jordan CD250 Fire Hydrants and new service lines for all businesses & residences that are serviced by this section of water main. The proposal was put together by Christopher Burke Engineering and the lines would be pressure tested and chlorinated in accordance with IEPA standards. Ensuring that our main transmission line remains in functional condition is essential to the department's operation.

Project/Program Title: Insertion valve Joint Coop Purchase w/ Western Springs

Description of proposed new program/activity/expenditure, including purpose and justification:

Insertion Valve Machine – Shared Use with Western Springs

As part of ongoing water system operations, an insertion valve machine will be shared between Western Springs the City under the terms of a forthcoming Intergovernmental Agreement (IGA). This machine enables the installation and maintenance of insertion valves without interrupting service, improving operational efficiency and system reliability.

- **Purpose:** To install and maintain insertion valves on the water main while minimizing service disruption.
- **Shared Use:** Western Springs and the City will have mutual access to the machine and dedicated vehicle as per the forthcoming IGA, allowing coordinated operations and maintenance.
- **Maintenance & Costs:** Routine maintenance, operation, and repair responsibilities, as well as associated costs, are allocated according to the IGA.
- **Operational Coordination:** Both parties will coordinate scheduling and use to ensure availability when needed and minimize conflicts.
- 50/50 cost share of machine, refurbishment of a dedicated vehicle (12k City Share) Western Springs will store the vehicle and machine Total cost is \$245,000 with 10 various sized valves-City Share \$122,500

The shared use of the insertion valve machine enhances regional collaboration, reduces capital duplication, and ensures efficient water system management for both jurisdictions.

MOTION NO. M-74-25

AGENDA MEMO

City Council

October 6, 2025

ISSUE STATEMENT

A motion accepting Driving a Cleaner Illinois-Volkswagen Grant through the Environmental Protection Department/Organization Unit: Bureau of Air, in the total amount of \$298,395, and approving the City share of \$149,197, for a total cost not to exceed \$447,592 for the purchase of one (1) electric dump truck vehicle and one (1) electric charging unit as per Exhibit A.

BACKGROUND

The City was recently notified of a grant award through the Bureau of Air, funded by the 2016 Volkswagen settlement for Clean Air Act violations. The Volkswagen Environmental Mitigation Trust was established to reduce nitrogen oxide (NOx) emissions through the replacement of older diesel/gasoline vehicles with cleaner alternatives.

In compliance with grant requirements, the City must retire a vehicle with a model year engine between 1992–2009. Ordinance No. O-18-23, passed on November 6, 2023, previously declared the 2009 Sterling LT7500 Truck No. 408 as surplus. Due to ongoing mechanical issues with diesel particulate sensors on several trucks, Truck 408 remained in temporary use but was not auctioned and subsequently allowing it to qualify for this grant.

Grant guidelines mandate permanent removal, (scraping) of Truck 408, including:

- Drilling a 3-inch hole in the engine block
- Severing the truck bed frame in half

The grant funds will support the purchase of one (1) Class 4–8 all-electric truck to replace the retired vehicle, see truck pic labeled as Attachment A. While the original truck has since been replaced, the new EV truck will serve as an additional fleet vehicle, providing:

- Hauling capacity for both street and water divisions
- An opportunity for City staff to evaluate the functionality and performance of electric trucks
- No snow plowing capability; dedicated to hauling operations only

The EV truck will be housed at the Municipal Services Facility with a dedicated charging station installed onsite.

The total estimated cost to the City is approximately \$150,000, which includes:

- The required match for the grant-funded electric truck
- The cost of installing an electric vehicle charger

A separate agenda memo will be presented for the actual purchase of the vehicle and the charging infrastructure upon grant acceptance and bid results of the vehicle/charging station. The cost will be split equally between the water fund and general fund. Please note, pending production dates and delivery, the vehicle may not be delivered until after May 1, 2026.

STAFF RECOMMENDATION

Staff recommends a motion accepting Driving a Cleaner Illinois-Volkswagen Grant through the Environmental Protection Department/Organization Unit: Bureau of Air, in the total amount of \$298,395, and approving the City share of \$149,197, for a total cost not to exceed \$447,592 for the purchase of one (1) electric dump truck vehicle and one (1) electric charging unit.

COMMITTEE RECOMMENDATION

This item was not reviewed by the Municipal Services Committee due to the timing of the grant approval and processing.

ALTERNATE CONSIDERATION

As directed by the City Council.

DECISION MODE

This item will be placed on the October 6, 2025 City Council agenda for formal approval.

PASSED BY THE CITY COUNCIL OF THE CITY OF DARIEN, DU PAGE COUNTY, ILLINOIS, this 6th day of October 2025.

AYES:	<u>6 – Belczak, Kenny, Leganski, Schauer, Stompanato, Sullivan</u>
ABSTAIN	<u>1 – Gustafson</u>

Uniform Term(s)	CODE of FEDERAL REGULATIONS Title 2: Grants and Agreements PART 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR 200) Grant Accountability and Transparency Act (GATA), 30 ILCS 708/1 Illinois Adminstrative Code
Grantor-Specific Term(s)	
Program-Specific Term(s)	<ul style="list-style-type: none"> • Grantee shall replace an eligible existing Class 4-8 diesel truck or Class 8 port drayage truck licensed and used on public roadways with a new Class 4-8 all-electric truck or Class 8 all-electric port drayage truck licensed and used on public roadways in which both the existing diesel truck and new all-electric truck are of the same truck type and class. • Grantee must own the new all-electric truck. • Each diesel truck to be replaced should be the one described in the application and be engine model year 1992-2009. • The existing diesel truck to be replaced and the new all-electric truck have at least 80% of their annual operational hours in the Chicago area and be used to haul and deliver freight or cargo consistent with the same priority level area identified in the application. • The new all-electric truck must have an engine model year in which the project occurs (or later) or one engine model year prior. • Grantee must annually certify that each new all-electric truck had at least 80% of its annual operational hours in the Chicago area and operated consistent with the priority level area identified in the application each year for a minimum of five years from the in-service date. • Grantee must certify that it will maintain adequate charging infrastructure for each all-electric truck. • Scrappage: All vehicle replacement projects require the replaced engine and vehicle to be scrapped within 90 days of the new engine/vehicle being placed into service. "Scrapped" is defined in the Trust Agreement to mean to render inoperable and available for recycle, and, at a minimum, to specifically cut a 3-inch hole in the engine block. It shall also include disabling the vehicle chassis by cutting the vehicle's frarne rails completely in half. Evidence of appropriate disposal must be provided, including digital photos of the engine tag (showing serial number, engine family number, and engine model year), the destroyed engine block, and cut frame rails as applicable. • If program income, as that term is defined in 2 CFR 200.80 and 44 Ill. Adm. Code 7000.20, is generated by selling the scrapped engine and/or vehicle, the program income requirements at 2 CFR 200.307 apply. Grantee may use program income towards its mandatory cost share. Grantee must report program income to Grantor. • The Driving a Cleaner Illinois Program is a reimbursement program. Grantee is required to pay for all project work and seek reimbursement from the Illinois EPA upon completion. Grantee must provide all required documentation. Upon project completion and receipt of all required documentation, the Illinois EPA will request the Volkswagen Trustee to reimburse Grantee directly. • Grantee may not use Trust funds to satisfy obligations that are mandated by law or regulation, by any court order or decree, or by other agreement of any kind. • Grantee may use other funding (federal, state or other) as part or all of its mandatory cost share, provided such other funding source allows for it. • Grantee is prohibited from combining funding from this program with other funding such that it receives more than 100% funding for any project. • Eligible Costs were established in the NOFO. • Grantee must submit quarterly reports and a final report as required by the Grantor. • Grantee must complete a Fiscal and Administrative Risk Assessment for each State fiscal year that its grant agreement is in effect. • This project is subject to approval by the Volkswagen Trustee.

BUDGET REQUEST FORM

FYE 27

Department: Streets

Fund: Streets and Water

Project/Program Title: 40 Foot Storage Container and lot improvement

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: _____ Original Cost: _____

Staff recommends purchasing a storage container to store seasonal holiday decorations. The proposed placement site is at the rear of the property, near the existing parking area. This plan includes carving out a section of the landscape berm near the abandoned well, without anticipating any impact to the well, constructing a retaining wall, and widening and extending the rear lot northward with a stone base and asphalt. Any debris removed from the site will require testing and proper disposal.

Estimated Budget:

Account #	Account Name	Cost
01-30-4815	Street Dept – Capital Equipment	\$12,500.00
02-50-4815	Water Dept – Capital Equipment	\$12,500.00

Subject: Up Dated - Container Sales Group Quote- Delivered to Darien, IL

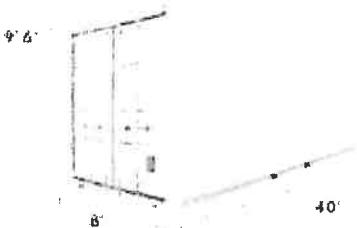

(630) 417-5146

Dennis-

It was nice talking with you. Here is the quote you requested.

Depot Facility: Chicago

40'
HIGH CUBE

New/One-Trip Containers (see below sample pictures) -

Description: Manufactured overseas and loaded with cargo to make a one-way trip to the United States. Some units may have minor surface dings or light dents from moving the freight in and out of the container. These units have solid floors, strong enough to hold a forklift and heavy cargo. Ideal for Storage, Ocean Export or Building.

\$ 4,300.00 for 1 x 40 ft. High Cube (9 ft. 6 in. high x 8 ft. wide)

Delivery-

\$ 498.00 approximate (need exact address) to deliver & place on the ground to Darien, IL

** Due to market fluctuations, all pricing and delivery dates are estimates based on the information available at the time of the quote and are subject to change**

HOW TO PURCHASE - Call our office or email us the following information and we will email you an invoice

- Company Name & Contact Name
- Phone & Address for Billing & Delivery
- Door Position- Doors Facing REAR (sliding off first) or CAB (sliding off last)- shipping container will slowly slide off the back of the truck as the driver pulls forward, please advise on how you want the container loaded on the truck.
- Delivery Contacts- The driver will call once he is loaded and is on his way. Provide **2** delivery contacts- name & telephone numbers.

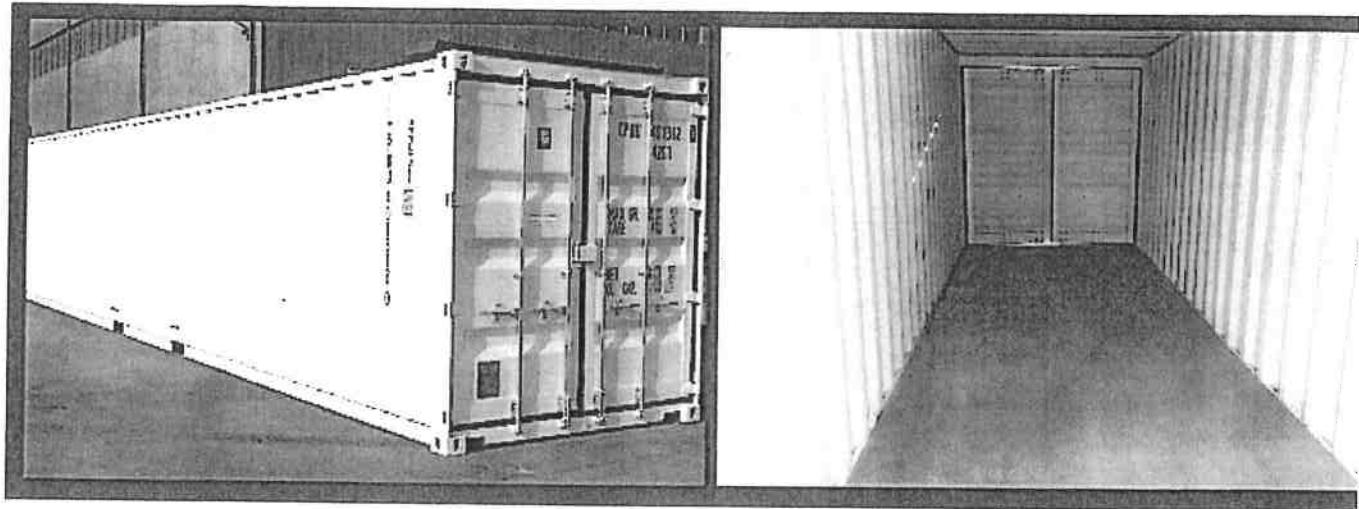

PAYMENT OPTIONS – Invoice will be sent via QUICKBOOKS with a link to REVIEW AND PAY. Advise which payment option you prefer:

- (no fee) - e-check/ACH – you will need your checking account & routing #
- (3% fee)- Credit Card/Debit Card
- (no fee)- Mail Check to Container Sales Group 4479 Lawn Ave # 300 - Western Springs, IL 60558

DELIVERY REQUIREMENTS-

- Straight-line Space Needed- The delivery truck will back up and slowly slide the container off as he pulls forward
 - 75 ft. - for 1 x 20 ft. container
 - 150 ft. - for 1 x 40 ft. container or 2 x 20 ft. (moved together)
- 12 ft. Width Clearance -Trucks make wide turns, so make sure there is enough space to turn into your property and get between gates or other obstructions.
- 16 ft. Height Clearance- No Wires or Trees Above - The tilt body truck bed will hydraulically lift up behind the driver's cab as the container slowly slides off on the ground as the truck pulls forward.
- Level, Solid Ground

Any EXISTING program/activity/equipment costing in excess of \$5,000

BUDGET REQUEST FORM

FYE27

Department: Street and Water Fund: 4815

Project/Program Title: Mini-Split Heating and Cooling System Installed for the PW Office Area

Description of proposed new program/activity/expenditure, including purpose and justification:

Year purchased: Various Years for existing Furnaces and AC Condensers

Original Cost: Unknown

The PW Office Area struggles to stay warm during the winter and cool during the summer time. Often times the units run for extended periods of time for the relatively small space. During summer it is not uncommon for the office area thermostat to register temperatures in the mid 80's despite 70 degree and even instances of 60 degree temperature settings. Working in the office at these temperatures is very uncomfortable and staff becomes sweaty and leaves their office due to conditions. In the winter there are still spaces that remain uncomfortable with cold temperatures despite low 70 degree temperature thermostat set points. Windows will form ice on the inside and staff reports having to leave their office due to having cold fingers making it uncomfortable to work. The proposed mini-split units will assist each space in heating and cooling by supplementing the existing units. We believe the ductless system with units in each portion of the office area to be the ideal solution to the problem. They will supplement the existing units in both operations. Project will need Electrical work as well and we don't know if any unknown issues will be ran into so I am estimating a little higher than usual on the contingency.

Estimated Budget:

Account #	Account Name	Cost
01-30-4815	Street Department Building Maintenance	\$10,150.00
01-30-4815	Street Department Building Maintenance - Contingency	\$5,000.00
02-50-4815	Water Department Building Maintenance	\$10,150.00
02-50-4815	Water Department Building Maintenance - Contingency	\$5,000.00
	Project Total	\$30,300.00

Department: Water

Fund: 4815

Project/Program Title: Truck #401 Replacement

Description of proposed new program/activity/expenditure, including purpose and justification:

New Truck will be an F-550 Crew Cab with a Fiberglass Service box. The City has had significantly better results with Fiberglass Service boxes over the old steel service boxes that would rust out and have tools falling out of them. The entire inside of the bed of the truck and insides of the service boxes will be sprayed with heavy duty spray liners to protect and extend the life of the body. The upsize in the Cab and Chassis allows the truck to be able to pull the skid steer, mini-excavator and main break trailer (as a backup) out to job sites as needed. This would not be able to be done if we bought smaller Cab & Chassis sizes due to towing capabilities. The service box will be outfitted with drawers for organization of tools, water meters in various sizes, water meter MXU devices & touch pads, wire and other required components. Additionally, the truck and body will be upfitted with safety lighting, work lighting, a Generator to run power up pumps, job site lighting, heaters and other tools, power invertor to power/charge tablets and/or laptops/phones etc. for mobile work orders and meter appointment entry, JULIE tickets, Positive Response Entry, dig tickets and various other forms. The plow will service Water Plants, Public Works and City Hall Lots and cul-de-sacs as needed. The Truck will not have salting capability but having trucks that can clear the snow is always good for when things break down, which we do experience many times over the course of a winter season. This truck will be replacing a daily workhorse for the Water Department and having a more robust truck will benefit the Department immensely.

Year purchased: 2017 Original Cost: \$42,434

Original Cost: \$42,434

Truck 401 currently has 125,000 miles and is starting to experience transmission and engine issues as well as some electrical issues. It received a 75 rating by the mechanic this past fall and is ready for replacement.

Estimated Budget:

Account #	Account Name	Cost
02-50-4815	Water Department – Capital Purchases – Cab & Chassis & Body Upfit	\$122,438.00
02-50-4815	Water Department – Capital Purchases - Graphics	\$1,250.00
02-50-4815	Water Department – Capital Purchases – Contingency 5%	\$6,185.00
02-50-4815	Water Department – Capital Purchases – Total Budget	\$130,000.00

 - Payload Plus Upgrade Package 2 (68H)

NOTE: Ford is restricting sales of 6.7L Diesel (99T) on F-550 with Payload Plus Upgrade Package 2 (68H) and F-600 6.7L Diesel (99T) to customers for registration outside of California, Massachusetts, Oregon, New York, Vermont and Washington.

Additionally, Ford is restricting sales of F-550 6.7L Diesel (99T) with Payload Plus Upgrade Package 1 (68M) to customers for registration in California, Massachusetts, Oregon, New York, Vermont and Washington only.

¹ Ford Connectivity Package included for one-year from warranty start date. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. To activate the one-year complimentary trial, retail modem authorization and credit card authorization for auto renewal is required; customer may cancel at any time.

² Select option for a one-time purchase of Ford Connectivity Package. Ford Connectivity Package will be active for 7 years on this vehicle (non-transferable to another VIN) from warranty start date. Requires activation via FordPass® app. Not available for fleet orders. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Ford may temporarily slow data speeds if such data usage reaches or exceeds 50GB within a billing cycle or due to network limitations. If a customer uses more than 50% of their data usage in a roaming country during a 60-day period, Ford may remove or limit the customer's data plan.

*** NOTICE: We are closely monitoring the tariff situation very carefully. Aebi Schmidt North America and its Monroe brand manufacture products in the United States, so the direct impact of current tariffs will be moderate. Although we make significant efforts to source components domestically, this is not always feasible. At this time, we cannot predict the potential cost increases that may arise through our supply chain or from further tariffs. We understand that this may raise concerns, and we want to assure you that we are working hard to minimize any impact on our customers and if cost increases need to be applied to existing or future orders, we will discuss these changes with our customers upfront.*

Any EXISTING program/activity/equipment costing in excess of \$5,000

BUDGET REQUEST FORM

FYE27

Department: Municipal Services

Fund: Streets and Water

Project/Program Title: 9 TON TRI AXEL DECKOVER TRAILER – Hydro Seeder

Description of proposed new program/activity/expenditure, including purpose and justification:

City staff recommend the replacement of the existing pipe trailer based on a recent evaluation conducted by the City mechanic. This trailer is a critical piece of equipment used to deliver pipe and construction materials to job sites and to pick up supplies from local vendors. Replacing the trailer will improve safety, reliability, and efficiency in daily operations.

The current trailer has reached the end of its useful life and would require extensive repairs, including a new deck, structural steel repairs, and replacement of rotted bottom beams. Due to the scope and cost of these repairs, replacement is considered the most cost-effective option.

The proposed replacement trailer will include spring-assist loading ramps to reduce physical strain on operators and enhance jobsite safety. It will also be equipped with an optional 10-ton dual-axle configuration, providing increased load capacity and improved operational flexibility.

Year purchased: 2010 Original Cost: 8,000

Estimated Budget: 15,000

Account #	Account Name	Cost
01-30-4815	Street Dept. - Equipment	\$20,000.00
02-50-4815	Water Dept. - Equipment	\$20,000.00
		\$40,000.00
